

## CONSERVATION NECESSARY AS WELL AS WISE POLICY IS WESTERN GOVERNORS' VIEW

### Association's Meeting Out Why West Should Not Make Mistake--Interior Dept Grilled

SALT LAKE CITY, June 5.—That the government officials and the western governors who are attending the governors' conference which opened in this city today will agree on some general plan of handling conservation of public resources, and other questions in dispute between the western states and the federal government, was the opinion expressed tonight by many of the officials.

In accepting the invitation to meet the governors, A. A. Jones, first assistant secretary of the interior department, said that he was here as the special representative of Franklin K. Lane, secretary of the interior, to ascertain what the west wants and to try as far as possible to give it to them.

The session today was devoted in most parts to organization and the reading of papers of those governors who were unable to be present. The subjects discussed in the papers read today were:

"National Control of Natural Resources," by Gov. George W. P. Hunt of Arizona. "The Association of Western Governors," by Gov. Oswald West of Oregon, and "Timber Culture in the Prairie States," by Gov. L. B. Hanna of North Dakota.

The conference elected Gov. Joseph M. Carey of Wyoming president and Gov. Tasker L. Odell of Nevada secretary.

The governors visited the copper mines at Bingham this afternoon. National control of mineral resources as opposed to the theory of state control was warmly defended by Governor Hunt.

"Conservation either state or national, must be counted a failure," said the governor, "if it does not directly and materially benefit the entire people, as contrasted with the benefits conferred upon special interests and monopolies."

Must Not Defy Control.

"The eastern states, acting independently and as individuals, handed their natural resources over to a few privileged ones, who proceed to take all the substance and leave the people in the shadow."

"Unpleasant as it may be to admit the truth, the west was for many years going through exactly the same process with reference to its own mineral resources under the operation of what is called state rights. The great and almost ruinous blunder of the eastern states does not justify the same thing in other sections. The record does not justify the attitude of defiance to national control now more or less in evidence."

"Until our great mines and resources on public lands, which belong to the people, can be made to benefit the whole people of today and tomorrow, they had better be left untouched. There is no need for haste in handing them over to private interests. Cooperation between the states and the nation will do more good than all the quarrelling over state rights."

"The western states defended conservation of natural resources as a national policy not only wise but necessary. Departmental administration of that policy from Washington he attacked as often arbitrary, stupid and dilatory creating an irritation among those whom the government sought to serve which too often rebounded in the end to the benefit of the large aggregations of capital which had

## MORMON INFLUENCE IN LOBBY SUGGESTED; SENATOR SMOOT MAKES VEHEMENT DENIAL

### Probe Is to Be Made More Extensive Than Ever Dreamed; Will Cover Every Phase

WASHINGTON, June 5.—The senate lobby investigating committee decided tonight to extend its present inquiry into a sweeping investigation of all organized efforts that have been made to influence legislation upon legislation of any kind now pending before congress or under consideration in the recent past.

Questions as to the interest the Mormon church holds in sugar and woolen factories in Utah brought about a lively clash between Senator Smoot and Democratic members of the committee late today. Senator Smoot said the church held a small amount of stock in the Utah-Idaho Sugar company, and in the Knight Woolen Mills company at Provo, but he rejected questions by Senators Reed and Walsh that he thought carried insinuations that he represented the interests of the Mormon church at Washington.

Smoot Gets Angry.

"Here in Washington I represent all the people of Utah," he said sharply. "I don't represent Mormon or Jew or Gentile, black or white, Methodist or Presbyterian."

Sensor Reed said he had not meant to insinuate that Senator Smoot was

## COMMENCEMENT WEEK EVENTS BEGIN TODAY

### Class Play This Afternoon and Sweet Oratorical Contest Tonight

College will be opened today with the presentation of the senior class play, Shakespeare's "Much Ado About Nothing." In the college park at 4:30 o'clock this afternoon. This evening at 8 o'clock the fourth annual Sweet Oratorical contest will be held in the Park ball with seven speakers. The program for the contest follows:

Oratorical Contest.  
(Prof. J. W. Park presiding.)  
The Awakening of China. Guy H. Hopkins.  
The Conservation of Our Human Resources. Edgar Taylor.  
Society and the Criminal. Frederick H. Rolles.  
Paramount Problems. Karl F. Weller.  
Essentials in College. Chalmers A. Border.  
Child Labor. Frank H. Hall.  
Scholastic Standards in Colorado College. Helen M. Rand.  
Judges: The Rev. Gibson Bell, George M. Irwin and the Rev. W. W. Ramey. Prizes \$30 and \$20.

## MASTER PLUMBERS IN SESSION HERE

### Banquet and Business Meeting Yesterday—Officers to Be Elected Today

The sixteenth annual convention of the Colorado Master Plumbers association began with a business session in the rooms of the Chamber of Commerce in the Burns building yesterday afternoon, and last night a banquet, featured by several snappy, informal talks, was held at the Acacia hotel. The business sessions of the convention will be continued today, when officers will be elected. Tomorrow the delegates and their ladies will take the Crystal Park automobile trip, and will leave this city for their homes that evening.

The session of the convention yesterday afternoon was taken up mostly with routine business, such as the choosing of committees and receiving reports of the president and other officers. The convention probably will go into executive session early today. Various entertainments will be carried out for the wives of the delegates today, while the men are in session at the Chamber of Commerce.

There are about 80 delegates to the convention.

## INDIAN NOBLES IN PLOT TO MASSACRE ENGLISH OFFICIALS

CALCUTTA, June 5.—A society organized for the purpose of waging war on British rule in India has been discovered with widespread ramifications. Acting on information laid before him, which resulted in a search of the house of his own son by the deputy magistrate of Midnapur, Bengal, the police arrested today 44 Bangals of good family on the charge of plotting a wholesale massacre.

Documents which were found in the house contained proposals for corrupting the Sepoys in the military centers, plans for wholesale massacres and a list of the members of the society.

## 38 SILK WORKERS ARE CONVICTED OF UNLAWFUL ASSEMBLAGE; FACE JAIL

PATERSON, N. J., June 5.—Thirty-eight silk workers who are pickets gathered in front of a mill during strike disturbances on April 25 were convicted of unlawful assemblage today by a county court jury. Each face a prison sentence of from one to three years or a fine of any amount up to \$500 or both imprisonment and fine. The probably will be sentenced tomorrow.

HOBOKEN, N. J., June 5.—One hundred and fifty bullmuckers quit work at the Fletcher iron foundry today (Friday) then serve under a foreman who they say insulted the American flag.

According to them the foreman a Canadian, waved an English flag and declared it was the only flag fit to be under.

## PUEBLO SMELTER MEN STRIKE FOR NEW SCALE

PUEBLO, June 5.—One hundred and fifty men composing the Zinc and Lead Smelters Union of the United States Zinc company smelter, located at Blende, three miles east of this city, went on strike tonight to enforce a demand of increased wages. About 500 employees of the company are concerned in the strike which is a result of the enactment of the new eight-hour law for mine and smelter employees.

## SPRINGS IS A VICTOR ON ALL POINTS

### Every Claim Upheld in Opinion State Supreme Court. Copy Received Here

## MAY BUILD ITS OWN PLANT

### Has Power to Buy Current at 585 Cents, or May Purchase Elsewhere

Colorado Springs won a victory in every contention made in the suit against the Hydro-Electric company. The written opinion of which handed down Monday by the state supreme court, was received yesterday by Mayor McKesson.

The abstract of the opinion received shows that the phrase "municipal purposes" was the crux of the case, these words being used in the Jackson franchise. Argument was advanced to bring about a distinction between the proposition of supplying electricity to private citizens by the city and the supply for general city purposes such as street lighting, etc. The court held to the more inclusive interpretation of this phrase. On the other important issue that the purchase of power from this company was purely optional the court also upheld the city's contention.

The decision comprises 26 typewritten pages and is about 5000 words in length. The first several pages are devoted to a statement of facts quotations from the Jackson franchise and an analysis of some of its provisions. Reference is then made to the permission granted the Colorado Springs Electric company to intervene in the case, and the court then proceeds to note the "singular and unusual fact that the parties to the contract (between the Hydro and the Electric companies) specifically state therein their disagreement as to the construction to be placed on section 3, now in controversy (the section relating to the supplying of power for municipal purposes) though in this case they appear to be in entire harmony in that particular."

The court then quotes the paragraphs in the contract between the two companies and points out that at the time of the making of the contract the intervening company held that, as the city contended in this case, section 3 did not constitute a binding contract on the city to secure its power from the Hydro Electric company, but was merely an option on the part of the city.

Analysis Phrase.

In its analysis of the phrase, "municipal purposes," as used in the Jackson franchise, the court points out that the contract requires that 90 days no-

(Continued on Page Seven.)

## CLEVELAND MAN MADE PRESIDENT

### F. L. MOORE HEADS AMERICAN BAGGAGE AGENTS

### J. E. Quick Elected Secretary for Twenty-Ninth Consecutive Time—Adjourned

F. L. Moore of Cleveland, O., general baggage agent of the Nickel Plate route, was elected president of the American Association of General Baggage Agents at the closing session of the annual convention of that body at the Antlers hotel yesterday.

Moore has been vice president of the association for the last year and has acted as its head since the death of the former president, Repton Quirk, of the Missouri Pacific railroad last December.

George L. Allen of Omaha general baggage agent of the Union Pacific railroad was elected vice president of the association yesterday, and J. E. Quick of Toronto, Ont., general baggage agent of the Grand Trunk Railroad was elected secretary.

Quick has been secretary of the association continuously for the last 28 years.

George F. Lee of the case, general baggage agent of the Rock Island railroad was elected chairman of the executive committee.

Yesterday ended the business sessions of the present convention. Aside from the election of officers few other definite transactions were taken up. The time of the meeting was taken up mostly with an exchange of ideas with a view to getting uniformity of methods.

The delegates as a body, did nothing last night. This morning, with their wives, they will take the Pikes Peak trip, and will go on the Crystal Park trip this afternoon. Tomorrow they will go to Cripple Creek and back over the Short Line before leaving for their homes.

No officers were elected by the Western Association of General Baggage Agents which concluded its quarterly meeting here yesterday.

## BRITISH PROTEST OF TOLLS DELAYS TREATY

### Arbitration Agreements Between U. S. and Spain, Italy and England Held Up

WASHINGTON, June 5.—Renewals of arbitration treaties with Great Britain, Italy and Spain about to expire were favorably reported today by the foreign relations committee. An extradition treaty with Paraguay almost, if not absolutely the last place in the world where an American criminal now is safe from justice also was approved.

Senator Bacon's bill to raise the location of Madrid to an embassy and to change separate legations for Uruguay and Paraguay were approved.

The proposed canal treaty with Nicaragua was not discussed.

Renewals of these treaties all three of which have expired within the last few days were favorably reported today by the foreign relations committee and the senate went into executive session to consider them. The treaties with Italy and Spain were promptly ratified but when that with Great Britain was reached Senator Chamberlain objected. After some discussion it was agreed that if one was to be held up at one or short time the other treaties should not be ratified and by unanimous consent the former action was reconsidered and all went over.

## Canal Protest Cause

Great Britain's protest against the proposed canal in the Panama canal act, creating free tolls to American vessels was submitted last several months ago long before the expiration of the arbitration treaty. Consequently the British contention is that whether the convention is renewed or not it can have no bearing upon a proposal to arbitrate this question.

Senator Chamberlain is author of a resolution now in a pigeonhole of the interstate canal commission, abrogating the Hay-Pauncefote and Clayton treaties under which Great Britain and the United States agreed concerning the construction of the Panama canal.

Senator O'Gorman of the canal committee and other senators, however, are known to hold that the tolls question is one of vital interest and that it was therefore included in the specific exceptions of the pact.

## STRATTON PARK DANCES EVERY WEEKDAY NIGHT

Owing to their popularity the Stratton park dances may be given every night except Sunday during July and August. On this account the schedule of the Midland band will be changed during those two months. The scheduled concert at Stratton park next Sunday afternoon, is as follows:

Sunday 3 p. m.—Stratton park.  
Monday 7:45 p. m.—Colorado Springs (North or South park).  
Tuesday 3 p. m.—Stratton park.  
Wednesday 4 p. m.—Colorado Springs (North or South park).  
Thursday 3 p. m.—Manitou.  
Friday 7:45 p. m.—Colorado Springs (North or South park).  
Saturday 8 p. m.—Manitou.

During July and August the band will play in Manitou Monday afternoons, beginning at 2:30 o'clock and Tuesday and Thursday nights at 8 o'clock instead of at Stratton park.

## High School Honors

Perkins Scholarships.

(One-half the income from \$2,000) FLORENCE MULLEN, JUSTIN MILLER.

Second Prizes.

(Years Scholarship at Colorado College.)

MYRIAM GARRETT MATSUSABURO YOKOTAMA.

The above honors for the four years' work were announced at the High school commencement exercises last night together with the following honorable mention in each of the four classes for the year just closed:

CLASS 1913: Margaret Atland, Roscoe Barker, Ruth Collins, Myriam Garrett, Justin Miller, Isabel McKenna, Florence Mullen, John Wesley, Pleasant Denton, Vickers, Bertha Weller and Matsushiro Yokotama.

CLASS 1914: Edith Boyd, Robert Chadbourne, Margaret Talm, Margaret McIntosh, Lucy Ritter, John Ritter, Edna Voss, Agatha Weaver and Mabel Wing.

CLASS 1915: Landell Bartlett, Marjorie Chase, William Campbell, Edwin Duval, Alice Clair, Ecker, Josephine Elpis, Stiles Gambrell, Cyrus Gambrell, Gladys Grafton, Chester Hart, Duncan Hetherington, Maurice Keessling, Almon Keith, Pearl Laverling, Robert Morris, Harold Peterson, Harold Pond, Max Shippee and Hayes Tucker.

CLASS 1916: John Bassett, Henry Koerner, Harold Leann, Frances McConnell, May Myers, Henrietta Pauline Whitner, Marian Wilbur, Rex Brown, Philip Coffin, Harry Groth, Samuel Knowles, Perry Johnson, Mildred Vermon, Holden Phillips, Earl Whitehead, Harriette Atland, Ramona Carrick, Thelma Coulson, Frances Curtis, Emily Dahlstrom, Alice Fox, Martha Glens, Esther Hathaway, Rita Marie, Laura Maupin, Eva Saville and Gladys Scott.

## DR. JEFFERSON IS MADE MINISTER TO ARGENTINA

### Executive Presents His Largest List of Nominations. Prominent Men Chosen

WASHINGTON, June 5.—President Wilson appeared unexpectedly at the president's room at the capitol late today with the biggest list of diplomatic selections he had made since he took office.

It was the president's fifth list to the halls of congress but this time he found the door of the "marble room" locked, the senate had adjourned and the sergeant-at-arms was taken by surprise.

"I guess I'll have to get a duplicate key for this door," said the president smilingly as the sergeant-at-arms hastily dispatched a messenger for the key. Hardly any senators were in the building but Secretary Tumulty sent out a call for about 20 of them and they came in quickly from the senate office building.

While the president has not definitely fixed on some of the countries to which he will make diplomatic appointments, he has chosen the men who will get the posts and about these he consulted Republican as well as Democratic senators.

The individual names about whom the president talked and some of the countries follow:

Thomas Nelson Page of Virginia, to be ambassador to Italy.

Justice J. W. Gerard of New York to be ambassador to Spain when the bill making Madrid an embassy instead of a legation is passed probably within a few weeks.

Col. Thomas H. Birch of New Jersey, to be minister to Persia.

Charles W. McAlpin, secretary of Princeton university, to be minister to the Netherlands.

Joseph E. Willard of Virginia to be minister to Belgium.

Major E. I. Hale of North Carolina, to be minister to Costa Rica.

P. A. Stovall of Georgia, to be minister to Switzerland.

Former Gov. Nelson McMillan of Tennessee to be minister to Peru.

Dr. B. L. Jefferson of Colorado, to be minister to a South American country, probably Argentine Republic.

Henry Morgenthau of New York, to be ambassador probably to Turkey.

Albert Schneiderman of Wisconsin, to be minister to Norway.

Frederick C. Penfield of Pennsylvania, probably ambassador to Austria.

Other names on the president's list about which he consulted Senators Kern and Shreve of Indiana were former Representative John E. Limb and Meredith Nicholson, the author. The countries to which they may be sent are said to have been undetermined.

When the president got through talking to the senators he met the newspaper men in the "corridor" and explained that the list had been drafted about diplomatic appointments and that no official list would be made public until word was received from the various foreign governments as to the acceptability of the persons named.

The president left the capitol as inconspicuously as he came. The attendants held an elevator for him, but the president thanked them and declined.

I guess I'm a good Democrat and can walk down, he said with a laugh.

## GOMPERS TO BE OPERATED ON AGAIN TODAY

WASHINGTON, June 5.—Samuel Gompers, president of the American Federation of Labor will undergo tomorrow a second operation for a mastoid abscess. Physicians said today Mr. Gompers was in good condition.

## HUNDRED DIPLOMAS AWARDED BY LOCAL HIGH SCHOOL; DR. WINSHIP GIVES TALK

### "Get Into the Game" Is the Topic of Eminent Educator; Louis Persinger Plays

Walking through the floral arch made by the snowball hains carried by the girls of the Junior class, the 100 young people who made up the class of 1913 of the Colorado Springs High school took their places on the stage of the Burns theater last night to listen to the address by Dr. A. E. Winship and to receive the diplomas granted by the board of education in token of the completion of their four years' work.

Dr. Winship's subject was "Get Into the Game" and he had some good advice to give to the graduates who are to leave the High school to find places for themselves in the world.

The audience crowded the big theater to the limit, and there was much applause as the speech was made the honors announced and the diplomas given. The appearance of Louis Persinger on the program was a surprise to the audience and he was given an ovation in appreciation of his playing for his old school friends. Fink's orchestra furnished the other music of the evening. Dr. H. H. Spencer of the First Baptist church gave the invocation and President Slocum pronounced the benediction. Mrs. Moors presented the diplomas in the absence of Dr. Kennedy, president of the school board.

Dr. Winship's Address.

Will be not only a different life from that of 30 years ago. We of an older generation have done fairly well with the start we had, but life requires different preparation nowadays. These young people cannot play the game unless they know it thoroughly. Here in Colorado Springs and you ought to be thankful that you live in a part of the world where they are looking forward and not back.

To play the game well we must play the game of today—an up-to-date

(Continued on Page Two.)

## TARFF WILL INCLUDE PLAN OF AN ITTUSI

### Will Levy Excise Tax on Tobacco Manufacturers Who Control Output Affect Only Dozen or So

WASHINGTON, June 5.—In accordance with suggestions of Attorney General McPherson, Senator Hitchcock of Nebraska introduced today an amendment to the Underwood tariff bill which would levy a special excise tax on a sliding or graduated scale upon manufacturers of tobacco, cigars, cigarettes and snuff. The amendment coming from a Democratic member will receive thorough consideration from the Finance committee.

The Progressive excise tax proposed, would not reach a manufacturer until he controlled about 1 per cent of the total production of the article. Over that amount he would be taxed in a sliding scale on tobacco 1 cent a pound for the first 1,000,000 pounds per quarter, 2 cents a pound for the second 1,000,000 pounds, and so on up to 5 cents a pound. These graduated taxes would be in addition to the regular 3 cents a pound tax that all manufacturers pay on tobacco. The same is true of the progressive tax on cigars, cigarettes and snuff.

Only Hit a Few, However.

Companies of ordinary size would not be subject to this tax because it does not apply to a production below 500,000 pounds of tobacco or 400,000 pounds of snuff a year, so that of the 2700 tobacco companies in the country, probably only three would be affected and of the 73 snuff companies only three would be taxed. In the matter of cigarettes the tax would fall only on two or three companies out of 473 and of the 20,000 cigar companies, only two have production large enough to be taxed.

Seventy million dollars was the amount of the total excise last year on tobacco products, and Senator Hitchcock has estimated that if the proposed tax had been levied on last year's business, the foreign trust concerns would have paid the additional tax as follows:

American Tobacco company, \$7,500,000  
Liggett & Meyers, \$3,100,000  
Lorillard company, \$144,000  
American Snuff company, \$77,000  
George W. Helme company, \$68,000  
Weyman & Burton company, \$51,000.

"There would also have been other companies subject to this tax. If it could be shown that they were under the same ownership or control of any of the big companies," said Senator Hitchcock today, "and in the case of the Lorillard company it would be subject to a much higher rate of taxation if it could be shown that it is owned or controlled by the same interests that are back of any other company. It is probable therefore that this tax in the aggregate would reach \$15,000,000 a year, which is so large that it would soon cause a real dissolution of the tobacco trust. If it did, not it would yield a handsome revenue to the treasury and so handicap the trust that it could not carry out its program of crushing independent companies."

The government already has the machinery to enforce this tax. Tobacco and snuff manufacture in all

(Continued on Page Four.)

# Delighted

It's with pleasure we now can announce that "the opening gun" in the battle for Dry Goods recognition in your city, will be fired in a short time.

Several shipments of our goods have already arrived and now it's up to the railroads, that are rushing the balance from various parts of the United States, to deliver before a more definite announcement can be made.

Unless there should be a particular reason why you should do so, we believe it would be to your interest to delay purchasing in the dry goods lines, as you may depend upon us to strike a sympathetic chord "regarding prices," in our opening sale.

We realize fully what we are up against and we are willing to go the limit to please you. Our limit is a great deal better than anybody else's, as our advantages at this time are largely in our favor. Proof of this statement to be submitted later.

You may be sorry should you fail to heed our warning, as we suppose you are not averse to allow your dollars to do more for you. We solemnly promise to make this an easy possibility. Now extend us the courtesy and benefit of your doubt.

We can recommend the "New Store" for your most serious consideration, as we know what it can and what it will do.

Henceforth Yours truly,

The P. L. THORSEN Stores Co.

## MORMON INFLUENCE

(Continued from Page One)

five action, is a point that Senator Cummings will endeavor to establish. He asked Senator Smoot today whether the latter knew of any such activity. Senator Smoot said he had heard of it, but could give the committee no information.

Senator Smoot gave the committee the names of many persons who had called upon him on tariff subjects. He did not know of the existence of a "lobby" or the use of money, further than as public advertisements indicated.

Insurance Companies Lobbying. Senator Williams, whose subcommittee has charge of the income tax feature of the tariff bill, expressed the belief there had been an organized effort by the insurance companies to rally policy holders against the income

tax. Insurance officials probably will be asked to appear later.

R. D. Rowan, who signed a circular produced by Senator Williams, advising cotton growers to urge their senators to support a higher duty on cotton cloth, C. D. S. W. Cowan of Texas, who has been active in the fight against free meat, A. W. Kahn, a former representative from Wisconsin, C. H. Brown and Otto Ruhl of Washington were subpoenaed tonight.

The decision of the committee to broaden the scope of the inquiry was determined upon after several senators had added to the testimony already given, tending to show that well organized and vigorous work is being done by commercial interests upon the sugar, wool and other tariff issues. The committee decided to subpoena practically all persons thus far mentioned by senators, as amongst their "tariff callers," and to learn the exact nature of all organized work that is being directed toward influencing any member of congress upon any subject.

The efforts of the committee will be centered first upon the sugar fight, next upon wool and after that a full investigation will be made that will take in the activities of prohibition and liquor "lobbies," the Alaskan railway forces, the labor unions, farmers' protective organizations and practically all other organized bodies that have carried on publicly campaigns, "endless chains" letter writing, or other means of influencing members of the senate or house.

Senator Overman, chairman of the committee, stated today that the investigation already had established the fact that powerful influences were wielded on senators by the organized forces conducting campaigns to mold or influence public opinion. This, he said, constituted a new style lobby of tremendous power.

The decision of the committee tonight has so broadened the scope of its work that the members do not know when the inquiry can be concluded.

### Start Monday Again.

The next phase of the situation will be taken up Monday with the calling of the first men identified with the free sugar and anti-free sugar campaign.

Members of the senate have almost unanimously testified that no improper methods have been used to influence them, and that the men who have called upon them are not "lobbyists" in the sense that that term is generally used. The committee found it impossible tonight, however, to define "lobbyists" or to fix a limit to its investigation. It was determined therefore to investigate everything that shows any sign of having been organized or having been a prearranged plan to influence legislation.

Among those who have been served with subpoenas to appear as witnesses before the committee were Truman G. Palmer, a leading figure in the fight of the beet sugar interests against free sugar, and Frank C. Lowrey of New York, who conducted in free sugar fight for the committee of whole sale grocers, and who is said to be an employee of the Federal Sugar Refining company.

### Smooth Tails Investments.

Senator Smoot told the committee he had no share in the United States and that his chief beef sugar interests were in the Knit-Sugar company, a company at Raymond, Alberta. The company also sell land and raise cattle. He gave his investments in industries that might be affected by the tariff as follows:

Union Portland Cement company, \$35,000; gold and silver mines, in which some lead was found, \$30,000; Utah Idaho Sugar company, \$1,232; Knit-Sugar company (Canada), \$31,500; Knit-Woolen company, Provo, Utah, \$2,475; newspaper, Salt Lake City, \$20,000.

### Smith Raises Poverty.

Senator Smith of South Carolina, the first witness at the night session, said he was principally interested in a farm of about 1,500 acres. "I raise mostly poverty," he added.

"That ought to be on the protected list," suggested Senator Nelson, and the committee laughed with the spectators.

Senator Smith said he knew of no lobby.

Chairman Overman was the next witness and he supplemented his statement earlier in the day, declaring that the evidence produced at the hearing had convinced him of the presence here of a lobby, but did not

## OROZCO CATCHES CHIEF OF REBELS

BUT IS BESEIGED BY BAND OF CARRANZA

100 Killed in Battle Staged at Candela Scraps at Various Points

MEXICO CITY, June 5.—A report was received here tonight that Gen. Pascual Orozco had captured Venustiano Carranza, the rebel leader, but that he is now besieged by a large force of rebels intent upon the recovery of their chief. The war department, however, does not confirm this report which is doubted.

Orozco, according to the rumor, caught Carranza near Mapimi and fell back on Torreon. Rebels have been summoned from a wide area to close in immediately on Torreon, which has been isolated.

To the south, the federalists nearest to Torreon who might aid Orozco would have to pass Zacatecas, which when last heard from was threatened by a rebel attack.

In the state of Michoacan, Uruapan, 55 miles to the southwest of Morelia, has been occupied by the rebels.

## 100 KILLED IN BATTLE NEAR CANDELA

LAREDO, Tex., June 5.—According to a courier who arrived here today from Monterey, 100 rebels and 20 federalists were killed in a battle between the army of General Telex and revolutionists under Jesus Carranza at Candela, Mex., Tuesday. A large number on both sides were wounded.

According to the courier the revolutionists were routed and fled in disorder, pursued by government troops. Candela is about 15 miles northwest of Monterey in the state of Coahuila, and near Monclova, said to be a rebel stronghold.

The forces of General Telex, said to number about 2,500 men, are engaged in repairing the line of the National railway from Monterey to Laredo, disposing of revolutionary bands as they proceed. A number of these troops are Indians from southern Mexico.

The courier reported General Telex within 50 miles of the border today. Four frame buildings at Colombia, Mex., owned by Sheriff Sanchez of Webb county, Tex., were burned today by rebels.

## RAILROAD SERVICE RESUMED

SAN LUIS POTOSI, Mex., June 5.—Freight and passenger traffic between this city and Tampico has been resumed, and the first train in two weeks arrived here today from Tampico. The railroad is well patrolled. Thousands of barrels of fuel oil are being sent from the interior to Mexico City to relieve the shortage there, which is becoming acute.

## 110 DEAD SOLDIERS BURNED

BROWNSVILLE, Tex., June 5.—One hundred and ten bodies—the dead of both sides killed in the fighting about Matamoros—were placed on a pyre today and burned. There was no funeral service.

## MANY AMERICANS ARE RETURNING TO NATIVE SOIL

GALVESTON, Tex., June 5.—Among 408 refugees who arrived in Galveston last night on board the steamship Harry Morse from Tampico, Mexico, was W. J. Voight, who was seriously injured while defending his wife and sister against marauders near Tampico.

Although no one was allowed to board the Harry Morse pending quarantine inspections, it was learned that hundreds of persons were flocking into Tampico in the hope of being able to return in safety to the United States.

## Third House of Congress.

The senator defined a lobby as a "third house of congress," seeking to influence the other two in legislative matters, sometimes legitimately and sometimes in other ways. He declared that while he was not certain there seemed to be some common basis of opposition among the sugar people and those interested in the cotton schedule, that North Carolinians interested in cotton had been told apparently by those who expected to be affected by free sugar that sugar on the free list meant ruin to the cotton producers.

Senator Overman said in the record a circular from an insurance company suggesting to policy holders that they write to their congressmen and senators objecting to the income tax provision. He also produced a letter from a Florida policy holder of this company directed to its president, protesting against use of the company's money in such a campaign, and the president's reply, stating that the board of trustees, having considered the protest, did not agree with it.

## No Personal Interest—Vardaman.

Senator Vardaman said he had no specific knowledge of a lobby or the use of money to influence legislation. He had no personal interest in the bill.

Senator Works was the last witness of the night session. He said he had talked with Senator Shively, a member of the finance committee, about the rate on loans. He knew of no organized effort to modify the bill or of an attempt to use improper influence. He thought, however, that a lobby was maintained to mold opinion. He declared that it is a misleading impression to create a misleading impression, it was unfair and should be punished. He advocated legislation making the guilty a criminal offense.

Mexico last year received at least half of her total imports from the United States.

25c Spotted Vests 45c

## HUNDRED DIPLOMAS

(Continued From Page One)

game. There are three great financial centers in America—Rockefeller, Carnegie and J. J. Hill. They are immensely wealthy, so wealthy that they have known how much money they have, although they know they are not so rich as they were before yesterday. I am a financier, but I would undertake to ask them to do something that they could not do. If I asked them to sell valentines on the Fourth of July, or at some other unsuitable time, but they they are good men or bad. They have certainly never done a thing at the wrong time. If they have done wrong things they have done them at the right time to do wrong things.

## Is No Sport.

I am no sport myself. In fact, I could call upon several people in this audience to witness that I am no sport. But nevertheless I find it necessary to go often to see a baseball game, for philosophical reasons. Did any of you ever see Mathewson pitch a fadeaway ball? If not, go the next time you can and watch him. See him take the ball in his fingers, never looking at it then as he holds the ball, although I suspect he knows what they are doing. He stands there carelessly and then his fingers begin to move, then his wrists, then his arms, and finally his whole body as he pitches a ball that is like a chair flying, until it gets a foot or two from the base, when it simply falls away. The batter takes a firm grip on the bat, seeing the ball coming like a chair flying, and he has a chance to swing only as he sees the ball still in the air. If you can pitch a fadeaway ball like that, you need never worry about the stock exchange.

But even the fadeaway ball will not always be up to date. I remember the sensation the spit ball made when it was first introduced, and the error, based thereon, and the serpent ball. They were all sensations at first, and they are out of date now. These young people must learn not to depend upon what they have studied, but to know what they must learn to meet the needs of tomorrow and how to learn them.

## Hope Is Last Word.

Hope as a habit of mind is the last word of science, of philosophy and of religion, and fear as a habit of mind is a thing to avoid. Hope looks into heaven and through heaven; fear looks the other way. Optimism is heaven; pessimism is the other way.

My vocabulary has been enriched by this last word, I have learned what a knocker is. A knocker is some one outside making a noise because he cannot get inside.

To play the game right, you must

play a hopeful game. A toiler is a man who works all day to get food to get strength to toil tomorrow to get food and strength to toil the next day. Those men are bachelors. A married man works for his wife, a father for his children.

A woman gets up in the morning, makes the fire, and gets breakfast, sends the boy off to school and the man off to his work. She is busy all the rest of the day, except 15 minutes in the afternoon, when she is free to do as she pleases. And as she does so she sees a ring on her finger and thinks of the adorable young man who put it there, and of the wonderful evening they spent together. What does it matter if John did forget to say "good-bye" this morning, and she was a little hasty in what she said? When John comes home she resolves to be just as she was the night he put the ring on her finger. The boy comes home from school, and she looks ahead, planning for his education and his class day. Her resting time is over, and she gets up to take the boy's overalls off and to get supper ready. She has worked all day, except for that 15 minutes, but if she has had a vision of the past and the future she has had a glorious day.

## Be a Good Loser.

If you are to play the game well, you must be a good loser. Nobody ever wins a game after he has ceased to be a good loser. A business man nowadays expects to lose two times out of five. Rockefeller, Carnegie and J. J. Hill have all lost a good many times, but they have never admitted it.

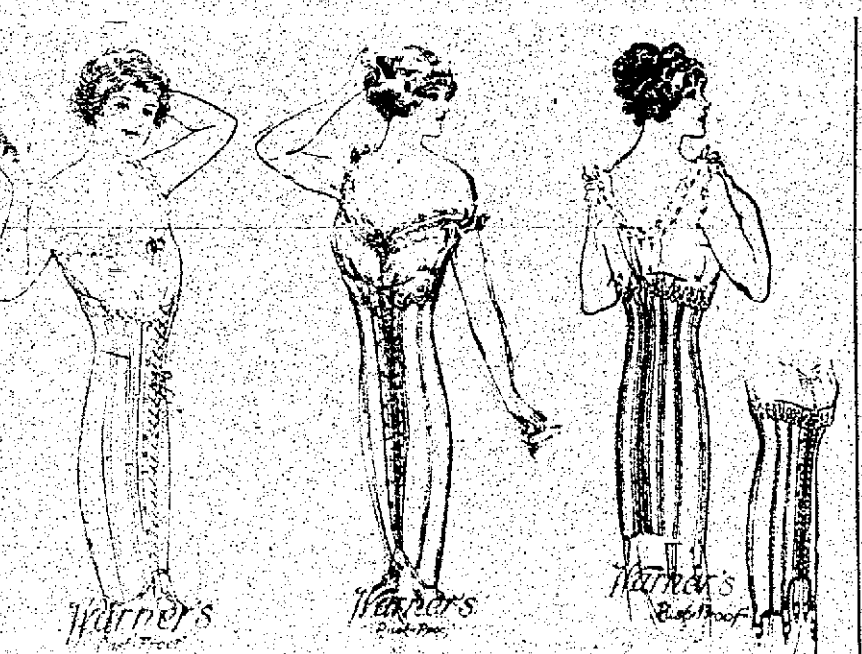

When they have lost they have always put on more steam, and they are where they are because they have won more often than they have lost.

I am old enough to have been an admirer of Blaine. I followed him through the great campaign of 1884, and I counted it as the greatest honor of my life when he called me by name in the Washington streets. And when he was defeated there did not seem to be anything in life that was worth while. But when I saw Blaine pour on his party and on his friends, because of defeat my idol fell. I am old enough to remember Horace Greeley, the man who died of a broken heart because he could not be elected president. They did not know how to be good losers. I am young enough to have known a man I have never voted for, and I admire him tremendously because he has been defeated three times without souring on anybody.

I hope for America that you young people and all the others who are to graduate this June may learn these lessons about losing the game. I hope that you will play a game that is up to date, that you will have hope as a habit of mind, that you will see a vision of what lies beyond your work, and that when you must lose you will be good losers.

Vancouver, B. C., refused to accept \$50,000 for library purposes from Andrew Carnegie.

The production of copper has trebled in the last 20 years.

## A New Feature in Corsets

## TO ENTERTAIN VISITORS

Colorado Springs and the whole Pike's Peak region is working hard to be ready for the entertainment of those who attend the National Turnverein convention to be held in Denver, the first of next month. That a large percentage of the visitors to the turnverein celebration will come here is a foregone conclusion. Elaborate plans are being made by Colorado Springs and Manitou to show the turners the best time of their lives.

As a large number of the visitors will be Germans, special attractions will be arranged which will interest them. Arrangements have been made to have a "Dutch" concert by the Midland band at Stratton park on July 2 and 3, and there will be a dance at Stratton park for the visitors.

Manitou is planning to have elaborate decorations for the turners, and Colorado Springs will enter into the entertainment with a vim. The Chamber of Commerce is considering the entertainment of these visitors.

The Colorado Springs Boosters association made considerable progress last night toward the entertainment of delegates and others attending the turnverein meet. Representatives of various clubs and commercial organizations of the Pike's Peak region were present. Charles E. Bruce, president of the Pike's Peak region, who has been head and shoulders in entertainment plans in connection with the convention, spoke enthusiastically and at considerable length.

A committee was named to confer with the general committee in charge of the entertainment of the turnverein visitors in Denver. Everything possible will be done to induce a large percentage of the delegates and others to

Make the trip to the Pike's Peak region. At a joint meeting of the Chamber of Commerce and the Boosters association yesterday afternoon, many plans were talked over and considerable progress made toward the entertainment of the turners.

## JAPANESE BOY WINS HIGH HONORS IN SENIOR CLASS

Matsusaburo Yokoyama, who last night was awarded second honors among the 100 graduates from the High School, has had a unique history. The boy, yearning for an American education, came to this country six years ago from Japan, where he was born, and came on his own resources, which were at a low ebb. He entered

YATSUSABURO TWAGWA YOKOYAMA

the local High School four years ago, and his work soon became an object of much wonder on the part of his fellow students as well as the faculty. He mastered English, through individual study, and soon became one of the leaders in all class work.

"Matsun," as he is known to his fellow students and teachers, will attend Colorado college next year and expects to become a philosopher. He has told friends that he doesn't want to return to his country, but that he wants to help the Japanese here. He is 20 years old.

## COLLEGE NOTICE

It has seemed wise to the trustees and faculty of Colorado college not to send in the city any individual invitations to the annual commencement exercises, for fear that some persons might inadvertently be omitted, but they desire to extend a cordial invitation to all citizens of Colorado Springs to be present at the public exercises. It will be necessary, however, to obtain tickets of admission to the Burns theater for Wednesday morning. Applications for them should be made at the president's office in Palmer hall.

ROGER H. MOTTEN, Marshal.

## TARIFF WILL

(Continued From Page One.) forms is under complete government control. The power to tax to the point of destruction is unquestioned.

It is summary, simple and irresistible. If it succeeds in this line of manufacture it may succeed in others.

Senator Thorpe introduced an amendment to the tariff bill which would bar from entry all goods manufactured wholly or in part by children under 14 years of age, or by children under 14 years of age, who are required to work more than eight hours a day or more than 48 hours a week. It also would bar all imports made wholly or in part by convict labor.

A portable searchlight has been perfected for use in night work.

Merle Miller McClintock

## Mr. Persinger, Loyal Friend, Plays First to Schoolmates

No one could ask for a warmer greeting from the "home folks" than the one Colorado Springs gave last night to Mr. Louis Persinger, when Superintendent Cole announced to the audience present at the graduating exercises that the young man, violinist of more than national fame, would appear on the program. Mr. Persinger was a student in the High School building when grade schools took up part of the building and he was also

County Institute Begins July 28. The county institute of district No. 5 is to be held in Colorado Springs from July 28 to August 8 inclusive. Some of the best educators in the state have been selected as instructors. Superintendent J. F. Keating of Pueblo being the conductor.

In connection with the county institute there will be a normal art course which will embrace the theory and practice of drawing and crafts work in the grades and High School. One period daily will be devoted to the drawing from nature and the making of designs based upon these natural forms. Two periods will be devoted to the carrying out of the designs thus made, in metal, leather, cardboard construction and stenciling on cloth.

While this work will be presented under the classroom condition of the modern city schools, yet in a simplified form it will be applicable to the country schools as well.

The purpose of this course will be to give the teachers, now actively engaged in teaching, the benefit of the methods and subject matter of the art schools of today. The course will be both cultural and educative.

Susan P. Leaming, director of the art department in the Colorado Springs High School, will be the instructor.

## Thomas-Persinger Recital Tonight

The event of this evening, for music lovers, will be the recital to be given by Mr. and Mrs. H. Morgan Aldrich, at the home of Mrs. Howard Aldrich, in honor of Miss Eleanor Thomas, violinist, and Mr. Louis Persinger, pianist. Two hundred guests have been invited, and most of them will be present to hear the two gifted young people. The program, which will begin at 8:30 o'clock, is as follows:

- 1-Ah! reading (Mozart)..... Rossi
- 2-a. Entr'acte..... Desplanes
- 3-b. Chanson, Louis XIII et Pavane..... Couperin
- 4-a. Tambourin..... Hassel
- 5-a. Recit. and Gavottes, "Tu sec..." and a Vola!..... Francesco Bianchi (L'Orfano della China)
6. Arias: "Ah, the clock strikes"..... Antonio..... Vincenzo Ricchini (La Gerusalemme liberata)
7. Miss Thomas..... Ground (Sapho)
8. Miss Thomas..... Wagner
9. Romance..... Zimbalist
10. Hebrew Air and Dance..... Zimbalist
11. Mr. Persinger..... Frederic Ayres
12. Sea Dirge..... Miss Thomas
- 13-a. Over the Hills..... Miss Thomas
- 14-b. Star Tunes..... Miss Thomas
15. The Mill-Wheel..... Miss Thomas
16. Gavotte Song..... Miss Thomas
- 17-a. Far off I hear a Lover's Lute..... Cadman
18. The Moon Drops Low..... Cadman (American Indian Songs)
19. Miss Thomas..... Kreisler
- 20-a. Reve d'enfant..... Mackenzie
- 21-b. Spring Song..... Mackenzie
22. The Spring Song..... Mackenzie
23. Floods of Spring..... Rachmaninoff
24. Miss Thomas.....

## High School Alumni Tonight

The alumni of the High School, numbering more than 100 since last night, will hold the annual reception tonight at the Antlers hotel, and they are anticipating a pleasant time. In addition to the play, "Nance (Oldfield)," there will be a short program, and after 10 o'clock there will be dancing. Miss Mahelle St. John is to sing "Perhaps," by Forster, and "You Are All That Is Lovely," by Fadden. The Temple quartet also will sing several selections. The members of the committee in charge of the arrangements are: Mrs. E. H. Dink, chairman; Mrs. E. R. Simmons; Mrs. Omer R. Gillett; Floyd McAnnamon.

The cast of the play will be: Mrs. Anne Oldfield (a famous London actress of Drury Lane theater)..... Miss Evelyn Lewis Susan Oldfield (her cousin, acting as companion for the actress)..... Miss Clara Oldfield, 12 Nathan Oldworthy (an attorney at law from Coventry)..... Lloyd Shaw, 10 Alexander Oldworthy (his son, a poet, infatuated with Mrs. Oldfield)..... Charles Emery, 11 Robert (a former man at Mrs. Oldfield's)..... Frederick Morath, 12 Immediately after the play, a short program and business meeting will be held, and after that, dancing will take place from 10 o'clock to 11.

## Engagement Announced

Interest of her friends centered in the tea given yesterday by Mrs. William S. Nichols to announce the engagement of her daughter, Louise, to Dr. William V. Mullin.

A number of the friends of mother and daughter were invited to the tea given at the Nichols home, 705 North Nevada avenue, and as each guest entered the house she was given a box, which contained the names of the young people. The news was not altogether a surprise to the friends, and they were eager to offer their congrat-

ulations and best wishes. Miss Nichols has lived all her life here, being educated in the local schools and at Christian college at Columbia, Mo., and she is one of the most popular young women in society here. Dr. Mullin came from Iowa City, Ia., about four years ago, and was associated with the late Dr. Gilead in the practice of medicine.

The reception yesterday was an elaborate one. Pink's orchestra furnished the music, and the house was beautifully decorated with snowballs and La France roses. Assisting Mrs. Nichols and her daughter in receiving were Mrs. Noble Prentice of Topeka, Miss Rena Smith of Weir and Miss Hortense Gerhart of Kansas City, who are guests at the Nichols home.

Those who assisted in entertaining and serving the guests were Mrs. Joseph W. Mullin, Mrs. Martin Skagheg, Mrs. Bessie H. Hopkins, Mrs. Arthur G. Sharp, Mrs. J. Raymond Lowell, Mrs. Lois Hudson Allen and Miss Doris Fehring. Those who assisted in the dining room were Mrs. Alfred A. Blackman, Mrs. Edwin W. Giddings, Mrs. H. Hoyt Stevens and Mrs. C. M. Williams.

The wedding of Miss Nichols and Dr. Mullin will take place at an early date.

## College Play Today

The play to be given by the senior class of Colorado college, "Much Ado About Nothing," will be put on for the first time this afternoon. It will be staged in the college park and will begin at 4:30 o'clock. Miss Evelyn Lewis has the production in charge. The cast will be as follows:

- |                |                   |
|----------------|-------------------|
| Don Pedro..... | A. Carson         |
| Don John.....  | Thomas Lynch, Jr. |
| Claudio.....   | A. J. Gregg       |
| Dionicio.....  | L. L. Shaw        |
| Leonato.....   | A. H. Rowbotham   |
| Antonio.....   | H. A. Bennett     |
| Balthazar..... | W. B. Vincell     |
| Conrade.....   | J. S. Shaw        |
| Dorachio.....  | D. S. Bailey      |
| Dogberry.....  | D. L. Bayes       |
| Varkes.....    | Thomas Lynch, Jr. |
| Francis.....   | F. S. Bailey      |
| Beatrice.....  | Marion Haines     |
| Margaret.....  | Helen Rand        |
| Ursula.....    | Carrie Burger     |

## San Luis Commencement

A number of parents and friends attended the closing exercises at the San Luis school, yesterday morning, and heard the announcement of the names of the young people who had won honors and prizes for the year's work.

Those who were awarded high honors were Janet Penney, Dorothy Price, Bertha Armit, Alice Franklin, Miriam Perkins, Helen Harmon, Florence Hosen, William Earle, Ruth Wiley, Shade Franklin, Jeanette Hawkins, Florence Knox, Honors, Vincent Gilead, Stuart Armit, Eleanor Ross, Veghte Hoagland, Elizabeth Lewis Hamilton, J. R. Cralle.

Prizes for perfect attendance were given to Charles Farnsworth and Janet Penney. Prizes for good work in composition went to Vincent Gilead.

## The Greatest Gifts of All for Graduates

**Waterman's (Ideal) Fountain Pen**

**OUTWEST**  
CLINTING & STATIONERY CO.  
6-11 Pikes Peak Ave.

dea, in the seventh grade; Ruth Wiley, in the sixth grade; George Allen, in the fifth; Myrtle Johnson, in the fourth. The prize for the greatest improvement in writing was given to Veghte Hoagland, and for the greatest general improvement to Myrtle Johnson.

Medals were given to Dorothy Price, Bertha Armit and Janet Penney, in the academic department; George Krause and Hood van den Arend, in the eighth grade; Miriam Perkins, Helen Harmon, Stuart Armit, Vincent Gilead and Eleanor Ross, in the seventh grade; Florence Hosen, and Veghte Hoagland, in the sixth grade; Jeanette Hawkins, Florence Knox, Elizabeth Hamilton, George Allen and Junior Burns, in the fifth grade.

The program for the exercises was as follows:  
Song—Italian hymn  
By the School.  
Song—"The Wise Old Owl."  
By the First and Second Primary Classes.  
Folk Dances—  
(a) Shakers Dance.  
(b) Skip of Dunkirk.  
First and Second Primary.  
Song—"Slumber Boat."  
Third and Fourth Grades.  
Folk Dances—  
(a) Act of Diamonds.  
(b) Danish Greeting.  
Third and Fourth Grades.  
Folk Dances—  
(a) Rill.  
(b) Dutch Roll.  
Folk Dances.  
Song—"America."  
By the School.  
Miss Ruth Law was the accompanist.

## Luller Commencement

The graduates of the Luller school held their graduating exercises yesterday afternoon in the Luller cottage, and there were some distinctive features. The class was seated at a long table, decorated with the pink roses and green foliage that carried out the class colors. In the center of the table was a big cake, with the legend, "Class of 1913," in pink icing, and at each corner was a place card decorated with wild roses in water color, done by the girls themselves. Ice cream, cake and strawberries were served. A number of the graduates of the school, serving the members of the class, Mrs. Robinson sang "There Little Girl, Don't Cry," and the class sang "Colorado," while the class was being seated. After the strawberries and cake had been finished the class gave a program, the numbers being as follows:

- |  |                  |
|--|------------------|
| Class Alphabet.....  | Aline Baker      |
| Class Prophecy.....  | Cecil Ross       |
| Class History.....   | Fred. Murdoch    |
| Class Will.....  | Josephine Miller |
| Fred. Murdoch was class president and toastmaster. There are 23 members of the graduating class, and eight pupils in the half-year class. A number of the parents heard the program, which was very unique and original. |                  |

## Annual Picnic Today

The pupils and teachers of the San Luis school will enjoy the annual picnic at Cheyenne canon today.

## Line Shower

Miss Franque Dycus gave a linen shower Wednesday afternoon at her home, 1122 Hayes avenue, in honor of Miss Helen Kinsman, who is to be married to Mr. Jack Kinsman tomorrow evening. A feature of the shower was a large lot of clothing, pinned full of various articles of linen for the bride's new home, gifts from her friends.

## Bible Class

The Mothers Bible class of the First Methodist church will meet this afternoon at 2:30 o'clock at the home of Mrs. Edgar Peyton, 202 South Sixteenth street. The special subject for the afternoon will be Mrs. Freyhofer.

## Lawn Social

Glen Elyre Chapter No. 8, Order of the Eastern Star, will hold a lawn social and quilting bee this afternoon at the home of Mrs. Ollie J. Smith, 728 Colorado avenue, to welcome Mrs. Gertrude Peck, a past matron of the order who has just come down from Denver. Members are asked to bring quilts.

The society editor requests that all news intended for this column should reach her before 6 o'clock on the evening before it is to appear. It can be given either personally or by telephone, Main 215, but it is necessary that it should reach her before that time.

## CONSERVATION NECESSARY

(Continued From Page One.)

In the state of Washington, on the ground that the land was chiefly valuable for agriculture. An investigation, 10 years later (1911), showed most of the lands to have passed into the hands of timber companies.

Selfish interests give voice to the cry for state ownership of the lands in federal forests, and point to the fact that they are escaping taxation, but they fail to point out the further fact that these forests were state owned, the lands would not be subject to taxation; and to the further fact that the federal government spent in 1911 about \$483,000 in our state alone for forest protection, while the receipts from sales of forest products and other sources amounted to but \$142,000.

Corporations Decey Conservation. Prior to the creation of the national forests our timber resources were fast slipping from public ownership into the hands of a few large corporations, whose aim appears to be control of the industry. The policy is to acquire and hold, letting the other fellow supply the demand of today, well knowing the time will come when they will control all that remains of our once vast timber supply, and therefore he in a position to dictate the prices at which it shall be sold. It is estimated by the government authorities that the timber supply in this country amounts to about 2,000,000,000,000 feet, and if the present cut continues it will last only 55 years.

## THREE DEAD RESULT OF FAMILY QUARREL

OMAHA, June 5.—While defending his mother from an attack by his step-father, Charles McBride shot and killed John Jacobson, who was divorced from his mother, and was in turn killed by Jacobson, who fired two bullets into the young man's body before his strength was done. Jacobson then went to a closet, where his former wife was hiding, and fired a bullet into her body, which physicians say will prove fatal.

During the shooting, which occurred late tonight, 15 shots were fired and brought neighbors from adjoining apartments to the scene. Both men were dead and the woman unconscious when the police reached the scene.

Jacobson lay in wait for his former wife and her son when they returned from a theater and began firing when they appeared. The duel which followed was a bloody one, and bullets were found in nearly every piece of furniture in the room.

## 'Hello Kid,' Says Masher to Girl Cop Who Arrests Him and Writes to Wife

JOPLIN, Mo., June 5.—Miss Vernie Goff, Joplin's young police matron, made her first arrest in a campaign she started recently against street "mashing," when Harry Miller of Monett, Mo., accosted her on the street tonight with a flippant remark.

"Hello, Kid," said Miller. "You're under arrest," said Miss Goff, showing her star. "I'll just march you to jail."

After she had taken him to the city prison, Miller asked the matron to mail a letter he had written to his wife.

"I will do it," she said, "and I will write her a letter myself, explaining how you happen to be here."

## MANITOU RAISING \$2,000 FOR ITS IMPROVEMENTS

Manifesting a boosting spirit, the Hot Iron club of Manitou stirred up Manitou people to the tune of \$2,000 yesterday, and expects to get \$1,300 more within the next two days. The money is to be used for street decorations this summer, and the plans in this connection are elaborate.

Among other decorations will be two steel arches—one at the entrance to the town, in front of the Carnegie library, and another at the intersection of Manitou and Ruxton avenues. Special decorations will be put in place for the Knights Templar and Turnverein delegates who will make the trip to the Pike's Peak region from the Denver conventions.

The funds were received from nearly every class of business men in the town. When the decorations are in place, the town will present a carnival appearance.

## THREE GRADUATES AT CHEYENNE HIGH SCHOOL

Three girls—Hazel Birch, Juanita Horsfall and Grace Meyer—graduated from the Cheyenne high school at exercises held at the school building last night. The address at the exercises was delivered by Prof. R. H. Mott of the English department of Colorado college, who spoke on "Joy in Service."

## MEMBERS COOPERATE TO MAKE COMMERCE NIGHT UNPRECEDENTED SUCCESS

Reservations made yesterday indicate a general desire on the part of all members of the Chamber of Commerce to cooperate in making the opening night at the Burns theater next Monday a splendid success in every way. A large portion of the first floor seats were taken, together with many in the balcony, and in many cases firms and business houses reserved large blocks in order to care for their entire force.

"Pierre of the Plains" appeals to the people as one of the plays worth while. It has a virtue plot, a dramatic story and a wonderful setting. All of the Burns new star cast have taken pains in the play many times, so that there is no question as to a creditable production.

## SON CAUSES ARREST-AGED MOTHER FOR KIDNAPING

Detained here by the police at the request of her son, Mrs. H. C. Christman of Leadville was taken back to that town yesterday by a deputy sheriff to answer a charge of kidnaping her 7-year-old grandson.

Mrs. Christman is about 50 years old, and the authorities were reluctant to take her in charge pending the arrival of a deputy from Leadville. She admitted that she was taking her son's child to St. Louis to see his grandfather, who is critically ill, but that she expected to return to Leadville in a short time. According to her statements she brought up her grandson, whose mother died about six years ago. Soon after his wife's death Christman married again and it is said, seemed to take little interest in his child.

A few weeks ago, Mrs. Christman said, there was a disagreement with her son and his wife and the boy was taken away from his grandparents. Soon after that Mrs. Christman took her husband to St. Louis for medical treatment, and on the pleadings of the old man she came west again to take the grandson back to see him. When her son learned of the disappearance of his baby boy he caused the arrest of his mother when she arrived here on her way to St. Louis. The Christmans have lived in Leadville for the last 35 years, the elder Christman having been a county commissioner for two terms.

## ALLEGED CROOK NABBED WHILE VISITING HIS WIFE

The desire to see his wife and baby again led to the arrest yesterday of William Lewis of Kansas City, Kan., at the home of his mother-in-law, Mrs. Hester, Stewart, 1125 South Weber street. Lewis is wanted on a charge of larceny and burglary, and an officer from Kansas City is expected to reach here today for the prisoner.

It is said that the police have been on Lewis' track in Kansas for several weeks, but that he succeeded in eluding them until yesterday. About a month ago he sent his wife, who is a Colorado Springs girl, and their baby to this city. He reached here late Wednesday night, and was arrested a few hours later upon telegraphic advices from Kansas City. Lewis tried to escape from the rear of the Stewart house when he saw an officer at the front door, but ran into the arms of another.

His arrest disillusioned his hide of two years, although she still remains loyal to her husband. Lewis, it is said, caused her to believe that he was employed as a night watchman in Kansas City in explaining his frequent absences from home.

## Springs May Aid Plan of State Industrial Exhibit

The directors of the Chamber of Commerce are considering the proposition of joining a movement to have the state hold an exclusive industrial exhibit in the Grand Central palace in New York during November. R. H. Sexton, representing the Grand Central palace, placed the matter before the directors yesterday afternoon. A. J. Woodruff of Denver also addressed the body in an effort to have Colorado Springs enter into the promotion of the exhibit.

The exposition will cost in the neighborhood of \$100,000, but it is said the state could reap benefits worth twice as much as a result of the advertising it would receive. The decision of the Chamber of Commerce will be given within the next week, it is thought.

## WILL ANNOUNCE W. O. W. CONVENTION PLANS SOON

The executive committee appointed by the Woodmen of the World lodges of the Pike's Peak region to make arrangements for the entertainment of the thousands of delegates to the Pacific Jurisdiction convention of the W. O. W., which will be held in Colorado Springs during the last week in July, already is getting ready to announce its plans. E. M. Veal is chairman of the committee, and there are representatives from the two local lodges and the Colorado City lodge.

The convention will start July 25 and will last 10 days. At the last session in Portland a year ago there were from 7,000 to 10,000 visitors. Drill teams will compete for handsome prizes, and a number of entertainment events are being scheduled.

## ENFORCE PRESENT HEALTH RULES; NO NEW ONES ARE REQUIRED, IS SENTIMENT

When the American Public Health association meets in Colorado Springs next September, its delegates will find the cleanest, healthiest and best regulated city in the west. This is the aim of the city council, the Chamber of Commerce and the El Paso County Medical society. Ways and means to bring about this result were discussed at a meeting of the city council with the committee on public health of the Chamber of Commerce, at the city hall yesterday afternoon.

Consideration was given to the present ordinances, with special reference to those regarding spitting on the streets and in the public parks, and to those relating to the prevention of tuberculosis. Rigid ordinances in effect in Saranac Lake, N. Y., Asheville, N. C., and other places were cited.

It was the sense of the conference that additional ordinances are not needed at the present time, but that steps should be taken to see that present regulations are rigidly enforced, particularly with reference to spitting in public places and the active cooperation of the city government to this end was assured.

Various phases of the situation were presented and discussed by a chairman, Edward W. Kent, Dr. F. A. Faust, Dr. Charles Fox Gardner, Dr. W. E. Martin, Dr. D. P. Mayhew, Dr. W. H. Swan and Dr. G. B. Webb, members of the committee. Many suggestions were made and were discussed by the city commissioners. It was felt that steps should be taken to prevent spitting in North park and other public parks. Mayor C. L. McKesson and Commissioners D. G. Johnson, E. W. Frost, A. J. Lawton and J. J. Zimbank were present.

The need of an ordinance providing for a quarantine for whooping cough also was discussed.

## CRIPPLE CREEK MINE MERGER IS DROPPED

Owing to quiet conditions in eastern mining stock markets, the proposed merger of Cripple Creek properties, which was to center around the El Paso Consolidated Gold Mining Co., and which was being pushed by President Allan L. Burris of that company, has fallen through. The Golden Cycle, which was to have been included in the list of other properties, such as the Henry Adney and C. K. and N. has dropped from the proposed consolidation, and it is probable that the plan is finally abandoned.

Mining men scented a fall in the plans, owing to statements given out in New York by Joseph Walker & Sons, bankers, who were to handle the merger and especially due to the rapid fall in El Paso stock, which on a \$5 par basis has dropped to \$3.25 bid, hardly 65 cents a share on the old basis.

For some time last winter the mining world of Colorado was electrified by the sensational flights that El Paso stock made and rumors of a gigantic consolidation of Cripple Creek mines, including the El Paso, Golden Cycle, C. K. & N., Mary McKinlay, Gold Sovereign and two or three others, were current. The firm of Joseph Walker and Sons of New York was said to be the financial power behind the movement and large sums of foreign capital were to be secured. Several French and Swiss capitalists were interested in El Paso stock and assurances are said to have been given that the stock of the consolidating company would be floated abroad without difficulty. Mr. Burris and his associates organized the Colorado Mines, Railroads and Securities corporation and rumors were current that the mine and some of the mills in the Cripple Creek district would be included in the merger. An option on the sale of fourteen-fifteenth of the Golden Cycle stock was secured from President John T. Milliken.

Joseph Walker, Jr., and some other New York and foreign capitalists visited this city and the Cripple Creek district last winter and went through the El Paso and Golden Cycle mines. Statements printed in New York since that time are to the effect that Mr. Walker was not as favorably impressed with the merger plan as was anticipated.

## TWO ARRESTS FOLLOW HAIR-CUTTING PRANK

Two High school students will be tried in Justice Dunnington's court tomorrow morning on charges of assault. Both defendants are under bonds of \$300 for their appearance.

The warrants were issued from Justice Dunnington's court, following the alleged participation in an attack upon Justin Miller, son of J. K. Miller, and Malcolm Ord, son of William Ord, Tuesday night, Miller and Ord were members of the class which graduated last night, and the offense alleged to have been committed by a number of high school students is that of clipping their hair close to the scalp.

Armed with scissors, the attacking party went to Lyndall Tuesday night and surprised Miller when he was returning home. A towel was stuffed into his mouth to prevent him from making an outcry, and his hair was clipped close. The episode occurred in front of the home of Chief of Police Burns, who found a pile of hair and a Y. M. C. A. towel on the sidewalk the next morning. Young Ord was treated in the same manner, both boys exhibiting closely cropped heads at the commencement exercises last night. Ord, Sr., swore out the warrants for the arrest of two of the boys as soon as he learned of the affair. Miller was editor of the High School Levee and Ord was a public editor.

Principal R. C. Hill of the High school is investigating the case, and further developments are expected. This is the first haircutting prank in which High school boys have been involved for several years. Two or three years ago a number of students were caught and given a haircut by their companions because they had let the Longmont football team would beat the Terrers.

## WHITNEY'S BOY CHORUS

Arrangements have been made by the Y. W. C. A. to present to the people of Colorado Springs Whitney's Boys' chorus of 75 trained voices, June 15, at the Grand Opera house.

The program will consist of varied musical numbers and will afford an opportunity to hear one of the best things in its line in the western section.

## Prize Speaking Contest Broadmoor Girls School Burns Donates Rooms for Shan Kive Quarters

Headquarters of the Shan Kive carnival will be opened Monday in the Burns building, next to the Chamber of Commerce offices. Already correspondence has begun to pile up, and promoters of many carnival features are asking for attention. The location of the headquarters is considered the best possible one, as the Chamber of Commerce will be so closely identified with the carnival. The use of the rooms has been donated by James F. Burns.

## A CLUB MAN, A GAME WARDEN AND SOME FISH

Walter S. Andrews of Denver, prominent society and club man, and former Colorado tennis champion, was haled into Justice Dunnington's court yesterday following his arrest by Game Warden W. H. Duquette on a charge of having in his possession trout less than seven inches long. Andrews gave bond in the sum of \$200 for his appearance, June 21.

The fish in question, it is said, were caught by Joseph Harrison, also prominent socially and well known here and in the east, on a game preserve owned by a company of which Harrison is president. According to the story, Harrison asked Andrews to bring the catch to Colorado Springs, and when someone in Pueblo notified the game warden that Andrews had a number of undersized trout, the latter was overtaken here and the fish taken away from him.

Teulian, a Moroccan city in the Tangier peninsula, has been named the capital of the Spanish possession in northwest Africa.

## Today's Beauty Recipes

By Miss D.M.H.  
"One shampoo sold by druggists is entitled to all the praise showered upon it. That is not a shampoo. It is so different from other shampoos that you cannot try it yourself to know how truly good it is. It leaves the scalp clean, refreshed and free from dandruff and makes the hair glossy, wavy and beautifully lustrous. When embarrassing wild hairs disfigure the face or forearms, do not pull out or cut them off. Better treatment causes a darker growth. Superfluous hair is quickly and safely removed by one application of a paste made by mixing a little salicylic acid with water. Cover the hairs with this paste, leave on two minutes, wipe off, wash the skin, the hairs will be gone. "One often wonders at the perfect complexion of many women who are denied outdoor exercise. This simple remedy is used by all who know it, to make the skin fresh, clear and fine. Dissolve an equal package of magnesia in a hair pint of witch hazel and apply this lotion instead of powder. It eliminates the shine of perspiration and prevents freckles, tan and sunburn." Adv.

## Colorado City DEPARTMENT

For genuine Rockvale Canon City Coal, see C. M. Sherman, exclusive agent.

Mrs. F. A. Mayhall has as her guest her father, G. W. Wood of Tonkawa, Okla. Wood will remain in this city for a few weeks.

Frederick Wolfe, son of Mr. and Mrs. E. N. Wolfe, has gone to spend the summer with relatives in Newport, Ore. On his way to Oregon, Wolfe will visit I. A. Foote and family at Provo, Utah.

The E. Y. P. U. of the First Baptist church will hold its regular monthly convocation meeting at 7:30 p. m. this evening. Officers will be elected for the ensuing six months. All members are urged to be present.

The funeral of Mrs. Edward Handyside, aged 66 years, who died yesterday, will be held from the family home, 117 Colorado avenue, Sunday afternoon, the Rev. V. O. Penley officiating. Interment will be in Fairview cemetery.

Word has been received in this city of the death of Manila, P. I., of Ray Eubank, son of Mr. and Mrs. Ambrose Eubank of 1211 Washington avenue. Eubank was 25 years old and belonged to the United States Marine corps. The body will be brought to this city for burial.

Farrell Ennis, aged 16 years, who formerly lived in this city, was drowned Wednesday at Grand Junction when taken with cramps while bathing in a lake. He was on a picnic with a party of young folks at the time, but they were unable to reach him before he sank. Farrell Ennis was the son of William Ennis, who moved his family to Grand Junction from Colorado City last autumn. The boy was a nephew of Joseph Ennis of this city.

### Amusements

**CHAMBER OF COMMERCE  
NIGHT AT THE BURNS  
THEATER, JUNE 9**

Owing to unavoidable changes in the cast of "Pierre of the Plains," it is announced that Mr. Junius Matthews will not be able to take part. No doubt this will be a disappointment to many of his friends in this home city.

"Pierre of the Plains," dramatized by Edgar Solwin from Sir Gilbert Parker's stories of "Pierre and His People," will be presented by the Burns Stock company. At The Burns theater, next week, the scene is the Canadian northwest, and the people of this wild country are rough, unvarnished, primitive, who say what they think and give rein to their fierce passions of love and hate. If the power to grip the audience with the first rise of the curtain, and to hold them until the final curtain drop, is the test of a play, then there will be a good one at The Burns theater next week, for "Pierre of the Plains" has these powers.

### News of Local Courts

A Kreiger, a Russian, was fined \$10 in police court yesterday on a charge of vagrancy. Sentence was suspended on condition that he secure work at once or leave town.

## Hooray! Baby To Rule the House

No Longer Do Women Fear The Great-  
est of All Human Blessings.

It is a joy and comfort to know that these much-talked-of pains and other distresses that are said to precede child-bearing may easily be avoided. No woman need fear the slightest discomfort if she will fortify herself with the well-known and time-honored remedy, "Mother's Friend."

This is a most grateful, penetrating, external application that at once softens and makes pliant the abdominal muscles and ligaments. They naturally expand without the slightest strain, and thus not only banish all tendency to nervous, twitching spells, but there is an entire freedom from nausea, discomfort, sleeplessness and dread that so often leave their impress upon the babe.

The occasion is therefore one of unbounded, joyful anticipation, and too much stress can not be laid upon the remarkable influence which a mother's happy, prenatal disposition has upon the health and fortunes of the generation to come.

Mother's Friend is recommended only for the relief and comfort of expectant mothers, thousands of whom have used and recommended it. You will find it on sale at all drug stores at \$1.00 a bottle. Write to-day to the Bradfield Regulator Co., 120 Lamar Bldg., Atlanta, Ga., for a most instructive book on this greatest of all subjects, motherhood.

"HUMAN TIGER" GETS REPRIEVE

SACRAMENTO, Cal., June 5.—Jame Oppenheimer, known as the "human tiger," who was to have died on the gallows tomorrow, was reprieved for two weeks today by Governor Johnson to allow him time for a second appeal of the case to the supreme court of the United States. The condemned man is charged with two murders and several murderous assaults, most of which were committed while in prison.

Books is the name of a beetlike beverage made in Russia from millet. It has a pleasant taste.

### BLACKHEADS AND PIMPLES ON FACE

And Neck. Festered and Came to Head. Scatched and Made Sores. Completely Cured with Cuticura Soap and Cuticura Ointment.

P. O. Box 641, Corona, Cal.—"I was relieved of pimples and blackheads on the face and neck and was completely cured with the Cuticura Soap and one box of Cuticura Ointment. The pimples upon my neck and face festered and came to a head. I scratched them and made sores that hurt while scratching. My face was a mass of pimples and blackheads. I used a good many remedies which gave me no relief. I was troubled about a year before I used Cuticura Soap and Ointment. Three months use of the Cuticura Soap with the use of the Cuticura Ointment cured me." (Signed) Clyde E. Spencer, Sept. 25, 1912.

### RASH ALL OVER BABY'S BODY

J. P. O. Box 53, Quilicura, Wash.—"My baby's trouble came as a rash all over her body. Then it came out on her head and face in a solid scab. It itched and burned so she could not sleep at night, and it caused distress. Her hair fell out and then I had her hair shaved off. I used three boxes of Cuticura Soap and one box of Cuticura Ointment and now she is as fair as any baby that never had eczema." (Signed) Mrs. Aeph Butterfield, Aug. 15, 1912.

## FOUR BETH-EL NURSES TO GRADUATE JUNE 25

Four young women—Miss Eunice M. Higgins, Miss Laura M. Price, Miss Julia Ray Work and Miss Elaine Gullette—will graduate from the nurses training school at Beth-El hospital at exercises to be held in the First Methodist church, Wednesday evening, June 25. The address at the exercises will be delivered either by Bishop McConnell or by Dean Hart of Denver. Arrangements for a banquet to the graduating nurses also are in progress.

### SPRINGS IS

(Continued From Page One.)

time be given by the city of any demand for power in excess of 50 horsepower, and of the amount required, and constrains this as a condition to the granting of the franchise, to contemplate a large amount of power and the consequent time for preparation for its delivery. It then quotes authorities to support the position that a city has two classes of powers, under the second of which, characterized as "proprietary," quasi private, conferred upon it, not for the purpose of governing its people, but for the private advantage of the inhabitants of the city and of the city itself as a legal personality, the generation and distribution of electric power becomes a municipal use and purpose.

Hence, in the light of these authorities it cannot be said that in the granting of the franchise, the city did not and did not intend to provide for power for all municipal purposes. To hold is to impute to the city council either ignorance, or bad faith with its people. The practice of the courts in referring to this class of municipal purposes other than governmental as private, has had a tendency to confuse, in as much as these cannot be said to be in any sense private, as that term is commonly understood. The purpose is essentially a public one and for the general good of all the inhabitants, the support of which is provided for by a public tax levied upon all the citizens and property of the city.

### Decidedly Municipal.

The very fact that the legislature has conferred the power upon cities to erect and maintain gas and electric light plants, waterworks, etc., to supply its citizens to be paid for from taxes to be levied upon the inhabitants, is sufficient determination of the municipal purpose and character of these utilities. The power of the legislature to do this is not questioned in this case, and is universally recognized by the courts. Jacksonville, Electric Light company vs. Jacksonville, 30 L. R. A. 449.

Judge Elliott in his recent work on municipal corporations has stated as the rule: "The creation of an electric light plant to supply a city with light for use in the streets and public places, and in the homes and places of business of the inhabitants, is a municipal purpose for which bonds may be issued and taxation authorized."

### Franchise Defined.

After pointing out that the franchise is purely one for the generation of electric power, and does not purport to grant the right or privilege of erecting or maintaining an electric light plant or of supplying light to the inhabitants of the city, the court continues: "The generation and sale of electric power is the sole business in which Jackson and the defendants, his assignees, have been engaged. This power has been sold not only to the intervenor, but to other cities and to industrial companies. Then why is it not entirely reasonable to conclude that as one of the considerations of the granting of so valuable a franchise, the city should reserve to itself the right to purchase the power it might at any time require, upon the same terms as the most favored customer of the owners of the power plant, to be so exercised under and by virtue of the franchise. Aside from this, the city was to receive compensation for the franchise granted. It was to receive such as lights of incandescent power as it might require, at the stipulated price of \$5.50 per month. But it does not appear that this was not the reasonable or adequate value for such service. The only free service that the city might receive under the franchise was five arc lights of 2,000 candle power each, not more than 200 incandescent lights of 16 candle power each, and the maximum of 30 horsepower if required. Certainly this was small consideration for so valuable a grant and it may well be concluded that the city had in view the very purpose which it now contemplates, supplying its own citizens with light by means of its own lighting plant. Indeed, it is not conceivable that the city could use any considerable amount of power for any other purpose, within the scope of its municipal power as then and now understood."

### City Free to Act.

On the second proposition maintained by the defendant, "that the demand of the city, insofar as it relates to power to be used for lighting the streets, is a direct interference with the obligation of the contract," providing for the furnishing of certain arc lights for \$5.50 per month, the court takes the position that there is no express agreement that the city shall take and use them for any period whatsoever, or at all, that the only stated provision is that Jackson shall furnish the lights.

But, the opinion continues, "if the contract did so provide, then there is nothing in the grant to prevent the city from constructing its own plant and furnishing light to its inhabitants and to serve the city's other purposes." The question whether the city is bound in any respect by implication is discussed at length, many authorities being cited, and the court concludes that "an obligation of the public in such a case must be expressly stated and will not be implied," declaring that point to have been settled by a United States supreme court decision. "Had it been intended to exclude the city from exercising the privilege of establishing its own plant, such purpose could have been expressed by apt words."

### As to Third Point.

Regarding the third point raised by the defendant, that it is not its duty to furnish the power demanded by the city unless the city agrees to take the same minimum amount of power contracted for by the Colorado Springs Electric company, or a minimum of about \$44,000 per annum, the court speaks as follows:

"The third contention of the defendant company is that it is not its duty to furnish the power demanded by the city unless the plaintiff will agree to take the same minimum amount of power contracted for by the Colorado Springs Electric company, or a minimum of about \$44,000 per annum."

This seems to admit the unsoundness of the claims of defendant heretofore discussed, for if the city was not entitled to any such power as claimed, clearly it was not entitled to or required to demand power to the extent of \$44,000 in value per annum. But there is nothing in the agreement by which such claim of defendant can be justified, or even suspected. The agreement is that the holder of the franchise will at all times during the term of the grant furnish to the city such other power as may be required for municipal purposes. Plainly, this must mean much or little, dependent upon the requirement for the specific purpose. It is not within the province of the court to rewrite the agreement for the parties. Much is said in the briefs as to the construction of the word "required." We do not find it important or necessary to enter into any nice distinctions in that regard in this case, or to even discuss it. In view of our conclusions above stated, there can be no other conclusion in either of the instances in which the word is used in section 9 of the franchise, whether relating to arc lights or power, than that it refers to that which may be necessary for the purposes specified.

### Agreed on Favored Customer.

"It is agreed in the briefs that the Colorado Springs Electric company is the most favored customer of the defendant and that the price fixed in defendant's agreement with that company, is .585 of a cent per kilowatt hour. This, then, under the terms of the franchise is the price at which the city is entitled to receive the power demanded in this case."

"Counsel for defendant in error makes an ingenious argument to show that this price is augmented and the price to the city made undeterminable by other provisions contained in the contract with the electric company: (a) the amount to be consumed by the electric company, minimum and maximum; (b) the question of competition avoided under the agreement between the electric company and the power company; (c) the fact that the electric company was to furnish transmission lines from Manitou to Colorado Springs; and (d) possibly transformer and transmission losses."

But these cannot be considered. The fact is that the Jackson franchise provided that Jackson and his assigns should furnish power to the city and at such points in the city as it might specify, for the prices paid by its most favored customer, admitted in the arguments to be the electric company, and which, pays the agreed price of .585 cents per kilowatt hour. This clearly has reference to the selling price of the commodity under the contract. This is the common and ordinary meaning of the term.

### City Cannot Be Hampered.

"This was the agreed price at which the power was to be sold and purchased in the contract with the most favored customer, and the city cannot be hampered by other and different contract agreements, which may or may not have had influence in fixing that price. It is the price fixed for the sale of the commodity that is to govern. Finally defendant contends that it does not appear in the agreed statement that there has been a vote of the qualified electors of the city authorizing the construction of a plant and maintenance of an electric light plant, as required by the statute, and therefore, the city may not demand the power to be used for that purpose."

"This is not a question that defendant can raise in this case. It does not involve the right or power of the city to erect and maintain an electric light plant for the purposes asserted, nor to levy taxes therefor. It is simply a question of procedure provided by the statute in such case, and the court cannot presume that the city has not, or will not, proceed in accordance with the requirements of the statutes."

"The judgment of the district court is reversed with instruction to that court to enter judgment for the city in accordance with the prayer of its complaint, and the views herein expressed."

### Justice Musser not participating.

Justices White and Garrigue dissenting.

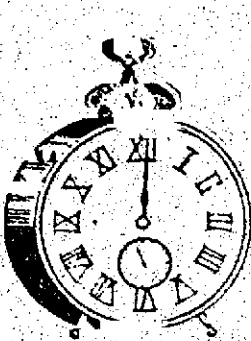

"The opinion concludes by directing the district court to enter judgment for the city, whose claims to the right to secure power at \$55.000ths of a cent per kilowatt hour, to build its own plant and furnish light and power for its own streets and inhabitants and to purchase power from the Hydro-Electric company or any other company at its own option, are unequivocally sustained."

### GUNBOAT OF MEXICO FLEES FROM AEROPLANE

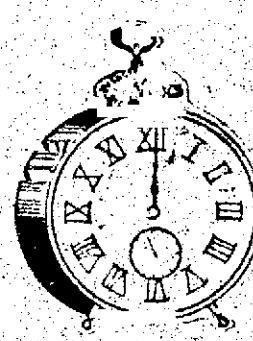

SAN FRANCISCO, June 5.—Officers of the United States naval collier Saturn, which arrived yesterday from Guaymas, reported that Didier Masson and his biplane had proved a source of anxiety to the Mexican federalists. The day the Saturn sailed from the southern port the Mexican warship Morales made a hasty departure to the sea, the reason given that she was fleeing from the biplane and the French aviator employed by the rebels.

### Kept Light Burning 50 Years for Sweetheart

AMSTERDAM, N. Y., June 5.—Miss Julia Frank, 32, better known as "Mother Frank," is dead at her home in West Stony Creek. She adopted and reared 16 children and for 50 years had attended Memorial day services in this village and had decorated the grave of every soldier buried there. Miss Frank's sweetheart, a soldier in the Union army, was killed at the battle of Bull Run and for more than 50 years she has kept a light burning in her window in anticipation of his return. She never accepted as authentic the report of his death. The farm where she spent her life is bequeathed to an unmarried sister on condition that the light be kept burning for the soldier.

### 24-YEAR-OLD PROMISE FULFILLED BY CHECK

LEE, Mass., June 5. A promise made 24 years ago was fulfilled yesterday when Charles Blonde received a check for \$10,000 from his brother, Joseph, Blonde of Anchor Waco. When he left Lee in 1889 to seek his fortune in the west, Joseph told Charles that he would make him a present if he prospered. In a letter accompanying the check, Joseph said that he had not forgotten his promise and that he had "made good."

India has produced about 2,000,500 tons of sugar annually for the last two years, or more than any other country in the world.

### WESTGARD GOES ON TRIPS TO INSPECT GOOD ROADS

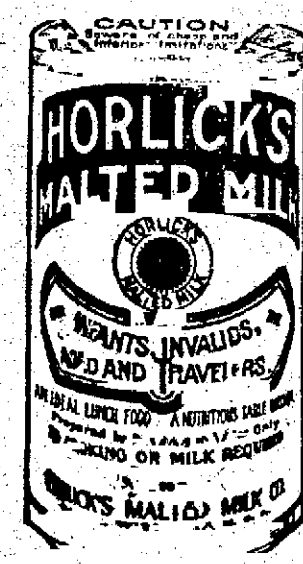

WASHINGTON, June 5.—Starting on the second lap of a 50,000-mile automobile tour of road inspection, A. L. Westgard, vice president of the National Highway association, left here today for Gettysburg and Pittsburg. Accompanied by Mrs. Westgard, he arrived from New York last night and before returning to that city purposes to inspect the through highways of the country, both north and south, as far as the Pacific coast. The tour is being taken for the gathering of first hand information for the highway organization. The northern route will be followed on the westward trip with side excursions to the Canadian border. Returning, Mr. Westgard will follow the southern coast, inspecting the roads of the southern tier of states.

### NEW JERSEY SENATOR FOR STATE'S ATTORNEY

WASHINGTON, June 5.—President Wilson today finally determined upon the appointment of State Senator J. Warren Davis of Salem, N. J., to be United States attorney for the New Jersey district, and prepared the formal nomination for the senate. Senator Davis, Democratic leader of the New Jersey senate, introduced the noted "seven sisters" antitrust bills, backed by President Wilson, and worked for the legislative policies of Mr. Wilson when he was governor.

## THE LOBBYISTS

CONTRARY to expectation, the senatorial investigation of the congressional lobby, which originated two weeks ago in President Wilson's denunciation of that time-dishonored institution, has not fizzled out. Everybody knows and best of all, members of Congress that there is a lobby in Washington which exerts a very potent influence on legislation. Everybody knows, too, that the lobby is especially active and powerful when tariff legislation is pending.

It is not merely a matter of newspaper gossip; it is well known to everybody who is reasonably familiar with public life at the national capital, and it is so completely a matter of fact that the President of the United States did not hesitate to discuss it with the utmost frankness. And when he did this even the Associated Press usually extremely cautious in its treatment of such subjects spoke of the present tariff lobby as if it were an institution as firmly established and as fully recognized as the Government itself.

But when, in obedience to the Cummins resolution, a senatorial committee set to work to learn something of this lobby everybody concerned immediately got ready to prove an alibi. One senator after another gravely testified that he had been talked to by certain individuals who had direct personal interests in tariff legislation, but had met no lobbyists. Some of them even wondered guilelessly what the meaning of the word could be; they were quite at a loss to explain just when they had been interviewed by a disinterested patriot, and when by a lobbyist.

True, it is somewhat difficult to define the word "lobbyist" exactly, but a member of either branch of Congress who has spent as much as thirty days in the capital without being able to recognize a real specimen must be a tyro indeed. Yesterday Senator Hoke Smith of Georgia, after a talk with the President, said:

"Everyone is entitled to his day in court, and I have always considered that a legislative body set as a court. Any attempt to influence its judgment after the argument is presented by seeking again and again to create sentiment and work upon the judgment of the members of Congress is 'insidious' and highly objectionable lobbying."

This conveys a fairly good idea of the lobbyist and his work. Senator Overman, chairman of the investigating committee, says they have "developed thoroughly the fact that there is powerful and concerted lobbying," which is not based on a personal appeal to senators, but on "the newer form of organized activities to mold public sentiment and to influence senators by means of public pressure from various sources." It is insidious to the extent that this publicity and organized campaign often partakes of misrepresentation and misinformation.

For instance, the so-called Woolen Trust can, and according to general belief, does spend immense sums to influence legislation. It was directly responsible for the outrageous Schedule K in the Payne-Aldrich bill. If money could accomplish it the same schedule, practically unchanged, would be written in the Underwood bill.

But this is not likely to happen, for the Democrats have too much to lose and too little to gain by this course; anyway, the President's denunciation of the lobby has cut the ground from under wavering members who otherwise might have yielded. The lobby is in Washington and it will stay on the job until the end, but it is not likely under present conditions, to exert much influence on the tariff bill.

## MAKING DOPE FIENDS

A FEW days ago a young man was arrested here and sent to jail for petty theft. It developed that he had stolen to get money to buy cocaine. The history of the case was pathetic, for the young man, who had come here from Limon less than a year ago, had contracted the cocaine habit from having been advised by a friend to use the drug to cure a cold. Of course it "got him," just as it "gets" everybody who trifles with it, and his downfall, physically

and morally, was not long delayed. Cocaine, more than any other habit-forming drug, induces criminality, for the craving is so insatiable that the strongest moral fiber is soon broken down and the victim will steal or commit other crimes to obtain the stuff. The progress of the habit toward complete mastery of its victim is speedy, and when well advanced it is incurable. Under these conditions the best thing to be said of it is that the victim does not live long. From beginning to end three or four years is usually the limit of the cocaine fiend's career.

Among the most enlightened members of the medical profession the feeling is constantly growing stronger against the use of such drugs as cocaine and morphine except under the most extraordinary circumstances. A local physician of wide experience tells us that he has not administered cocaine to a single patient for more than five years, because there are other drugs which are as efficacious and are yet free from the deadly habit-forming quality of cocaine. As for morphine, he finds that its administration is seldom justified, because there are more innocent remedies which will serve its purpose.

Neither the state law nor the local ordinance regulating the sale of cocaine and other habit-forming drugs is drastic enough. True, they cannot be sold except on prescription, but for the initiated prescriptions are not always hard to obtain. The penalty for violation is a light fine and, we believe, a mild jail sentence which can be imposed at the discretion of the court but only for subsequent offenses. The law ought to provide a heavy jail sentence for any and every violation, and a forfeiture of the druggist's license for a period of not less than three years.

For the truth is that the cocaine evil has reached such appalling proportions that it must be stopped. In Colorado Springs and many other places the police authorities declare that more than one-half of all the cases of petty criminality which come under their observation are directly traceable to cocaine. A drug which produces this effect is an instrument of unmitigated evil.

The most effective way of handling it, and perhaps it will be the ultimate way, would be a Federal law absolutely forbidding its manufacture or importation.

**THE PUBLIC AND THE DRINKER.**  
 From the Kansas City Times.  
 Of course Mr. Roosevelt is not a drunkard. The campaign lie that he was was only a particularly offensive bit of slander.  
 But the whole affair has an incidental significance. One of the most hurtful charges that can be made against a man in these days is that he is a frequent user of strong drink. It wasn't always so. One used not to take the trouble to deny such a "soft impeachment." For example, Daniel Webster's tumblerfuls of whiskey were rather the boast of his friends.  
 Not now and not again. In public life and in private life the habitual drinker is under many disadvantages—the material disadvantages of physical and mental disabilities, and the intangible disadvantage of loss of general esteem.

**WAR.**  
 From the Kansas City Times.  
 Dr. Abbott made a good point at the Lake Mohonk conference recently when he insisted that international justice must come before international peace.

One of the only ways to deal with a big bully who harasses a school is to give him a sound thrashing. Nations sometimes adopt the bully's attitude. They must be dealt with accordingly. It may be unfortunate that this is so. But human nature hasn't become wholly amenable to unselfish ideals.  
 The United States has been protesting to Spain about the intolerable conditions in Cuba for years. Spain had replied with fine promises, but no reforms. In that case international justice could be obtained only at the cost of international peace.

Turkey had been promising reforms in Macedonia for a generation, but the unfortunate inhabitants continued to be plundered and oppressed. Again justice was obtained through the sacrifice of peace.

The frightful nature of war needs no demonstration. But the time has not yet come when peace can be insisted on as always of paramount importance.

## WOMEN NEVER SO INTERESTING.

From Harper's Weekly.  
 Representative Thomas Heflin of Alabama announces that "thinking men are beginning to realize that the agitation in behalf of votes for women is one of the gravest perils menacing the welfare of the country today."  
 He thinks so, does he? But at least he will admit that it has set men to thinking more than ever about women, and their part in life, and the conditions of their activity.  
 Whatever anyone thinks about the expediency or inexpediency of votes for women, he must admit the great gain of women as a subject of thought. And that is an excellent thing and due to the prevailing agitation.

Women were never so interesting as they are today. Every woman has come to be a social problem to every thinking man. He keeps asking himself what is the matter with her; what should and what can be done for her; which kind of woman is the right kind; whether the industrial life for women has been overdone of late, or needs further development; whether marriage as it stands is a fair deal, and if not how to improve it.

That is a good result of disturbance. Perhaps Mr. Heflin and other fabbered statesmen will come to the conclusion after a while that the matter with women is that the men have neglected their job, and are not good enough nor wise nor able enough to appraise the contemporary women. And maybe Mr. Heflin and his friends will try to brace up and be better men. If enough of them should succeed, that might cure all the disturbance.

## YOUNG MEN AND THEIR WORK.

From the Philadelphia Public Ledger.  
 There is a general tendency among the effective young men of America to get to work earlier in life. They are studying out the problem and they have found that it is a mistake to spend too many years in preparation. In fact, every year given wholly to study after 24 is lost upon a career. Of course, there are many exceptions to this statement, but they serve to prove the rule. The specialist has to take more time, but the specialists are the minority.  
 President Lowell of Harvard has been making a

trip and the burden of one of his important speeches was that students should get out into life more promptly. One way for them to do this was to enter college younger. Most presidents and modern teachers are trying to bring a change and especially to warn young people from spending too much time in mere education. It has been ascertained from careful inquiry that the young man who starts late seldom catches up, and his whole career is contracted because he lost time at the beginning.

One result of the new tendency is that many young men are leaving college in their sophomore and junior years. This is most unfortunate. They should graduate, even though they feel the pull of active employment. But it shows how the powerful modern work is attracting the young people. Business has become a great post-graduate school in itself and some of the big corporations with system expressed in a working science are higher universities. No wonder the ambitious boy wants to get into them, to draw his own pay and feel that he is in line for the rewards of merit and industry. The great thing in life is youth. Business is hungry for it. The world wants it more and more. And youth is eager for the game.

## MAKE GOOD—DOPE AGAIN.

From Harper's Weekly.  
 If manufacturers are driven out of their present business, by tariff changes, may there not be an opening for some of them in making better lines of goods than the market now affords?

For example, the plumbers say that all current plumbing pipes are bad, that whereas they used to be made of iron and last in use for 20 or 30 years, now they are made of steel, and rust out much sooner. We merely repeat about them what we hear, but that is that there are no good steel or iron plumbing pipes in the market and that house-builders who want good pipes are advised to use brass.

Does it not seem as though there was a living for somebody in making honest old-fashioned iron plumbing pipes?

And consider nails. Anybody that has shingled a house within 10 years knows that wire shingle nails don't last as well by a great deal as the old iron cut shingle nails. The bright wire nails rust out with lamentable speed and the shingles get loose and roofs leak. But it seems that there are no old-fashioned iron shingle nails to be had. They are no longer made. "Want somebody make some?" So as to this, they tell us there is the good time made in this country, that the McKinley bill, tin that we get is made on thin sheets of steel (not iron) and not tinned thick enough, and the whole product is flimsy and has no wear in it.

Won't somebody who is out of a job please make some good old-fashioned tin? Also some good old-fashioned bicycle tires. Also various other articles of which we can get a list from various experienced croakers and laudators temporis aeterni.

## TOP NOTCH ENGLISH.

From the Top Notch Magazine.  
 New Year's day is the one universal holiday in China, when the shops are closed for several days, and the government offices for a month.

## WHEN IS TAG DAY?

From the Illinois Statutes.  
 Any person not a resident who shall take or catch in any boat, in any of the navigable waters of the state, any mussel, fresh water clam or shellfish, to which no metal tag is attached in the manner herein provided, shall be fined etc.

## ADS OF THE TIMES.

From the Lima (O.) Times-Democrat.  
 Wanted—A middle aged lady to keep house. No booze fighters need apply. Inquire at this office.  
 Wanted—Wheel for man in good condition. E. Swain.

## THE DELIRIOUS PRESS AGENY.

From the Blue Island Sun.  
 Miss Sarah Padden, Englewood's sweet young native star, will return to the National theater for the week of May 18, as Annie Jeffries. In "The Third Degree." Miss Padden has a molting approach and a golden femininity which predisposes an audience in her favor even before she makes known the extreme reach of her power as a delineator of strange feminine types. Youth alone, an enviable handicap, delays the rise to national recognition which must be hers as she advances.

## Are You a Snob?

BY RUTH CAMERON

Are you a snob?

Before you give an emphatic "No" to that, please let me explain what I mean by it. Are you absolutely and entirely democratic? Do you never make class distinctions in your mind, if not in your speech? Do you never find yourself in awe of some new acquaintance, because you have been told that he has a great deal of money? Are you never ashamed when one of your more fashionable friends sees you on the street with some shabbily dressed acquaintance? Do you never look down on people for the kind of work they do? Do you never try to make yourself out richer than you are? Do you never boast about your family connection?

If you can honestly answer "No" to all these you may emphatically answer "No" to that first question. But can you? I am afraid not. I am afraid the man who hasn't a single drop of snobbish blood in his veins would be far harder to find than Diogenes' honest man.

Maud Radford Warren tells the story of a young girl of a refined and educated family, who was suddenly thrown on her own resources by death and financial loss. The only way for her to earn her living seemed to be for her to go behind the counter. She lived in a small town which is supposed to be the most democratic place on earth, and yet it had been a little shock to think of a clerk in a store, she says. "For all the democracy of our town, there were some distinctions. I didn't want to do it. I guess some of us at heart are snobs, born with an instinct to climb. We are only qualified democrats, the best of us. I had always supposed I looked on a certain friend of my mother's who worked in a shop as quite as good as anyone else; now, however, I found that I had really pitied her."

I suspect that most of us have experiences like that when we realize suddenly that we have been entertaining some such feelings of superiority. I know have. I love democracy. There is nothing that I desire of myself more ardently than that I may be absolutely and consistently democratic, and yet again and again I am ashamed to find myself entertaining snobbish feelings.

Not that I have anything to be snobbish about, but that's the queer part of it. One doesn't need to have. In the play "Kismet" the beggar who has just been exiled by the Calif, vents his unhappiness upon a beggar of a lower order. As he lords it over the miserable creature, he moralizes to himself, "To the Calif I am dirt, but to the dirt I am Calif."

So we all must be Calif to somebody in the kingdom of our own families. Democracy of government is hard to win, but infinitely more difficult to bring about is that greater democracy, the democracy of the heart.  
 I wonder if it will ever come.

## Moonlight

By GEORGE FITCH.  
 Author of "At Good Old Siwash"

Moonlight is a second grade illumination furnished by the solar system free of cost to mankind and is used by a great many economical cities as a substitute for electricity.

Moonlight is caused by the reflection of the rays of the sun which strike the moon with great force and bounce on to the earth. It has a soft, silvery quality which is highly esteemed but is more unreliable than a candle with a heavy wind. As a business institution the moon is worse than a munition.

pal government and lives up to its schedule like a southern railway train in the flood season. The celebrated Philadelphia schedules, as prepared by eminent astrologers and used by hundreds of cities, calls for moonlight of the best quality for two weeks out of each month but usually during half of this time the moon is behind a bank of light proof clouds playing tag with the asteroids while the pedestrian is feeling his way home in pitchy darkness and trying to displace shade trees with his features.

Moonlight for commercial purposes is an imposing failure, but when mixed with sentiment it produces the highest grade of romances and has acquired a reputation in this line second to nothing in the market. A moderate dose of moonlight, taken preferably with plenty of water and sweetened with a few soft words will produce an engagement in from 10 to 15 minutes under favorable conditions. Many a young man who has no intention at all of marrying, has gone out into the moonlight with a young lady dressed in fleecy white stuff and has come back half an hour later an engaged man and wondering how in thunder he is going to explain things to half a dozen other young ladies for whom he has a tender regard.

Scientists disagree as to whether moonlight produces this effect by softening the heart or the head. Moonlight also has a pronounced effect upon dogs. If a healthy happy dog is exposed to moonlight for a few hours he will attempt to render an entire German opera. This can be cured by letting daylight through the dog with an ordinary 22 caliber rifle.

## MONEY LAUNDRY IS O. K.

WASHINGTON, June 5.—The government's "money laundry" is winning favor with treasury officials. Although the currency washing machines are still on trial, Treasury Burke today declared his investigation so far has stamped them as satisfactory. He has asked the bureau of chemistry to analyze the solution of soap and acids which cleanses the notes to determine whether it deteriorates the paper.  
 The treasurer also is considering whether the washed bill increases the dangers of counterfeiting. Two machines at the treasury building are turning out 50,000 clean "laundered" notes daily.

## DOCTOR CUTS TUMOR FROM BURGLAR'S SKULL TO MAKE AN HONEST MAN

CINCINNATI, June 5. Surgery was the title of the drama in which Dr. S. L. Kramer is now taking part. He is trying to make an honest man of a burglar by removing a tumor from his brain. He might have sent the man to prison and left the tumor in the brain, but the doctor had other notions.

"I believe I have killed the thief in him," said the doctor after he had performed the operation.

Sam Ryer, robbed the home of the doctor, and he was caught. He might have been sent to prison.

But the doctor, visiting the man in jail, asked how he would like to have his brain "fixed up."  
 "Now that's just what I need," replied the prisoner. "There's something wrong up there, I can feel it. All at once I seem to fade away, and when I wake up I find that I have done things I don't remember. I fell off a scaffold while a bridge worker in Pennsylvania, and haven't been right since."  
 The man was sent to the Sports hospital, Dayton, Ohio, where the operation was performed. It has been successful physically. Time alone will tell if it will bring about moral change.

## Blue Bird Pins make attractive Commencement Gifts-- 50c to \$2.50 each.

**HARDY'S**  
 16 N. Tejon

## THIRTY YEARS AGO TODAY

JUNE 6, 1883.

Dr. Tucker's family arrived in the city and took up their residence at the Hager house, corner of Pike's Peak and Weber street.

All of the tramps arrested and fined \$100 and costs by Police Magistrate Fixley, were allowed to skip the town at a time when there was much work to be done, and the citizens were thoroughly disgusted.

Dr. T. G. Horn and Mrs. M. A. Shields gave addresses at the state Sunday school convention in Pueblo.

## TWENTY YEARS AGO TODAY

JUNE 6, 1893.

H. M. Blackmer left for a visit in his old home town, Worcester, Mass.

Dr. W. C. Allen returned from the World's Congress of Homeopathic Physicians at Chicago.

It was the largest day in receipts for water rent ever known in the history of the city. About \$1,000 was received by the treasurer.

## A Trip in a Zeppelin Airship

An interesting account appearing in the World's Work of a voyage in the Zeppelin airship, Viktoria Luise, gives an adequate idea of the range and reliability of these vessels.  
 The airship from Dusseldorf to Berlin on the Viktoria Luise had been booked more than a month in advance. And it was well that the precaution had been taken, for the demand for places on the giant Zeppelin flyer is far beyond the airship's capacity. It would seem as though all Germany is clamoring for an opportunity to spend its money in the air.  
 The Viktoria Luise was advertised to leave Dusseldorf at 4:30 in the morning, and though I arrived at the airship dock a full hour before that time I found it a place of life and energy. The pilot was making a careful inspection of the great ship while it still rode at anchor within its shed. Members of the crew were testing the motors and propellers, while others were climbing through the upper structure to see that everything was right and tight.

## The Airship Excited.

After the arrival of my fellow passengers, who numbered 23, the automatic docking apparatus drew the ship into the open, and as we entered the cabin there was not one of us who did not show evidences of a fever of excitement. Air was pumped into the last balloon at the stern, and the Viktoria Luise tilted its nose at a rather sharp angle toward the sky. So nicely balanced was the ship between lift and dead weight that the driving power of the motors was required to send it upward like an aeroplane. As soon as a satisfactory level was reached the air was discharged, and we assumed a perfectly level position.  
 A Zeppelin airship leaves the earth with none of the balloon's soaring motion. It is just like a train, started without perceptible jar and kept in motion upon a perfect roadbed, perfect track and perfect wheels.

Leaving Dahlen behind, the northern foothills of the Teutoburger Wald stretched across our course. All three motors were running, though not, I was told, at top speed, and we were making about 44 miles an hour. On another trip the Viktoria Luise, under normal conditions, covered a fraction more than 49 miles an hour.

## The Airship an Old Story.

Bremen came to us a little before 7 o'clock, and as we swept in wide circles above the city, we could see its armies of men going to their work. They were little interested in us. The airship is an old story in Germany. Hamburg was reached just an hour and a half after we left Bremen behind. Again we made great loops over the city, which, with its harbor, wharves and houses was spread out as though it had been modeled of clay. From Hamburg we took a southeast course against the wind, traveling in the direction of Berlin. At noon we were flying over the Elbe valley by way of Brandenburg and Danzig. In another two hours we reached Wittenberg.

In the meantime individual tables had been placed in position, and luncheon was served much as it is in the ordinary dining car. There was soup, an entree, a roast—all piping hot—vegetables, salad, cheese and coffee. More of a dinner than luncheon, and all served as though the chef and waiters had the conveniences of a great hotel at their command.

## Used the Fireless Cooker.

The principles of the fireless cooker had been brought into service in preparing the food, the exhaust from the cooker being made to supply heat. After luncheon several passengers dozed comfortably in their arm chairs, enjoying the sun that shone through the starboard windows. A better place for an afternoon nap than the cabin of a Zeppelin airship cannot well be imagined.

Shortly before 3 o'clock we passed the lofty wireless tower at Naun, from which messages have frequently been sent to and received from stations 3,000 miles distant. Our own wireless was busy, but German reticence made it impossible for the passengers to learn results. After Naun, Spandau and Charlottenburg came quickly into view. We were over the Imperial palace 15 minutes before 4 o'clock, having made the flight from Hamburg in less than four hours.

Following the Spree river we came in five minutes to the Mr. Traffic company's dock. The Viktoria Luise

## GRAND TRUNK INDICTED ON 20 COUNTS FOR REBATING

COLUMBUS, O., June 5.—Twenty indictments charging rebating were returned by the grand jury in the United States district court here today against the Grand Trunk Railway company. It is alleged the company made illegal concessions on freight shipments between Adrian, Mich., and Newark, O.

## DIAMOND MERCHANTS FEAR TARIFF; \$23,000,000 IMPORTS

NEW YORK, June 5.—Diamond importers are with much justification, it is expected, of an increase in the tariff. According to the customs appraisers figures the value of gems received through this port during May was \$4,606,223, record-breaking figures for the month of May. Since the first of the year the import of gems has amounted to over \$23,000,000.

## MAN BEHIND CURRENCY REFORM

PROF. IRVING FISHER

No official confirmation to the rumor that Prof. Irving Fisher of the chair of political economy at Yale university, is the mysterious expert who is framing President Wilson's new banking and currency bill, can be obtained at the White house in Washington. But the information has been conveyed through underground channels from a very reliable source and there are few who express doubt regarding the report. Professor Fisher has been a most interesting figure in the life of the nation, chiefly for his efforts to conserve the public health and prolong the public life. Some of his theories follow: "The economic value of all the lives in the United States is \$250,000,000,000. The economic value (average) ranges from \$20 at the first stage to \$1,200 at its most productive age. There is double power to food that is masticated."

# THE DAY'S HAPPENINGS IN SPORT CIRCLES

Edited for THE GAZETTE by E. E. Overholt

## ST. LOUIS CHANGES BATTING ORDER AND WINS FROM NATIONALS; CHAMPS SHUT OUT

Rixey's Wildness and Pirates' Heavy Hitting Give Corsairs Easy Victory Over Phils

### AMERICAN LEAGUE

HOW THEY STAND

Clubs	W.	L.	Pct.
Philadelphia	23	13	.639
Cleveland	23	13	.639
Chicago	23	13	.639
Washington	23	13	.639
Boston	23	13	.639
St. Louis	23	13	.639
Pittsburgh	23	13	.639
New York	23	13	.639

ST. LOUIS, 12; WASHINGTON, 3.

WASHINGTON, June 5.—St. Louis easily defeated Washington, 12 to 3, in the third game of the series here. All of the home hitters looked alike and were hit in all parts of the field.

R.H.E. St. Louis: 13-10-0-0-2-12-16-1. Washington: 3-0-0-0-2-10-0-3-11-4. Mitchell and McAllister; Mullin, Altrock, Galla and Henry, Williams. Two-base hits—Johnson, Compton, Mitchell, Stovall, McBrade. Three-base hit—Balenti. Home runs—Henry, Galla. Double plays—Balenti, Pratt and Stovall; Balenti and Pratt; Galla, unassisted. First base on balls—Scott Mitchell, 2; Mullin, 2; Altrock, 2; Galla, 1. Struck out—By Mitchell, 2; Galla, 2.

CLEVELAND, 5; NEW YORK, 3.

NEW YORK, June 5.—Although New York put up a game fight against Cleveland today, they lost in the tenth inning, 5 to 3. Olson walked, with one out in the extra inning, and Turner doubled, Jackson was purposely passed, filling the bases. Lelievre batted for Deibold and struck out, but Gurney singled through the box, scoring Olson and Turner.

Walter of the Highlanders hit home runs in the first two times up. His second circuit smash came with Hartel on base. Mitchell pitched fine ball for Cleveland. He relieved Starn in the fourth, after the latter started the inning by passing Creel. McConnell also pitched a fairly effective game for New York, though he was hit freely in the first three innings.

R.H.E. Cleveland: 5-1-1-0-0-0-0-2-3-10-1. New York: 3-0-0-0-0-0-0-3-7-2. Steen Mitchell and O'Neill; McConnell and Gossel, Sweeney. Two-base hits—Grainger, Turner, 2; Borton. Three-base hit—Johnson. Chapman. Home runs—Walter, 2; Double play—Johnson and Chapman. First base on balls—Off McConnell, 4; Steen, 2; Mitchell, 2. Struck out—By McConnell, 5; Mitchell, 2.

CHICAGO, 5; BOSTON, 0.

BOSTON, June 5.—Scott held Boston to five singles today, all of them made by Hooper and Ball, two being of a scratch nature, and Chicago shut the locals out, 5 to 0.

The visitors hit Leonard opportunely and did some good base running. A double by Mattick in the second inning, followed by Weaver's single, an error and a sacrifice fly, gave Chicago two runs. Fournier doubled in the third and scored on Collins' single. With Leonard on base, Scott doubled and went to third on Rath's scratch hit. Lord hit to Leonard and Scott was run down. Rath coming around to third on the play. A double steal by Lord and Rath followed the latter scoring. Mattick singled in the eighth and was safe on second on Werkes' miff of Hooper's throw. Weaver scored him with a double to center.

R.H.E. Chicago: 5-2-1-0-0-0-1-5-10-0. Boston: 0-0-0-0-0-0-0-0-0-4-3. Scott and Schalk; Leonard and Chapman. Two-base hits—Mattick. Fournier. Scott. Weaver. First base on balls—Off Leonard, 1; Scott, 1. Struck out—By Leonard, 4; Scott, 3.

PHILADELPHIA, 10; DETROIT, 6.

PHILADELPHIA, June 5.—Detroit lost their third straight game of the series with the Philadelphia club today, 10 to 6. Willett pitched for the visitors and the Mackmen got to him hard and often, most of their hits being of the timely order. Connie Mack went in Cottrell against the veteran Tigers and the youngster got away with his game, although he was hit nearly as hard as was Willett.

R.H.E. Detroit: 6-1-1-0-0-0-2-6-13-2. Philadelphia: 10-2-0-0-3-2-1-10-13-1. Willett and Rondau; Cottrell and Lapp. Two-base hits—Oldring, 2; Cottrell. Three-base hits—Baker. Double plays—Witt to Gainer, Baker, Collins and McInnis; Vitt, Bush and Gainer. First base on balls—Off Willett, 4; Cottrell, 2. Struck out—By Willett, 1; Cottrell, 2.

### FOGEL WANTS INVESTIGATION

WASHINGTON, June 5.—Horace Fogel, former owner of the Philadelphia National league baseball club, came to Washington today to urge upon congress the passage of the resolution introduced some weeks ago by Representative Gallagher, which would direct an investigation into organized baseball on the ground that it operates as a trust in violation of the Sherman law.

## AMERICANS WHO WILL TRY FOR DAVIS TROPHY

Maurice McLoughlin

With the last practice yesterday before the beginning today of the international tennis matches, the American players, according to the critics, look good enough to win from the Australian team. R. Norris Williams, Maurice E. McLoughlin, Raymond D. Little and Harold H. Hackett are the four Americans selected to take on the team from Australia.

The Americans will play McLoughlin and Williams in the singles and Hackett and Little in the doubles. The Australians will present Doherty and Rice in the singles and Doherty and A. B. Jones in the doubles. That the Australian team may spring a new wrinkle in tennis tactics is the opinion of critics who have watched the visitors in practice. In two doubles they have been trying out a novel formation, playing one man up near the net and his mate back near the baseline. In this country and Europe, this alignment has long been looked upon as a poor game. It has been considered as a beginner's mistake. But the visitors have won from strong competition in practice matches with their method, and the last week has been used by the American team to prepare for meeting the formation in the international matches.

### F. C. Thompson Sets New World's Record

PRINCETON, N. J., June 5.—F. C. Thompson, a student in the Princeton Theological seminary, made a new world's record in the all-around championships held here today, when he scored a total of 7,494 in the 10 events. The previous records were 7,355, made by Martin Sheridan of New York and 7,476, made by James Thorpe, subsequently disqualified for professionalism. Thorpe made his record last September at Celtic park, New York.

Today's meet was sanctioned by the Amateur Athletic union and open to all registered amateurs, but the only entries were Princeton students. J. H. Simmons, M. Hayes and M. G. Davis competed against Thompson. Simmons finished second with 5,256 points. Thompson failed to equal Thorpe's records in any of the first three events, the 100-yard dash, the shot put and the high jump, and when the fourth event, the half-mile walk, was started, he was 361 points behind the record. He did the walk in 3 minutes 52 seconds, making 845 points as compared to 327 points made in this event by Thorpe, and also bettered Thorpe's records in all the following events except the broad jump. Thompson made his best showing in the high hurdles, which he ran in 16 seconds flat.

### ST. JOE GETS THOMAS

ST. JOSEPH, Mo., June 5.—Pitcher Joseph Thomas, formerly with the Wichita Western league baseball club, was signed by the local team of the same league today.

### UNION ASSOCIATION

## GARRETT TO TRAVEL IN EXHIBITION STUNT

Special to The Gazette.

CIRLEVILLE, O., June 5.—The Ohio state shoot here is progressing nicely, with a large attendance of high class shotgun men. Weather conditions are ideal and high scores are being made. In the professional class, William H. and Lester German shot for first honors with 145 breaks out of 150 targets. John W. Garrett, the Colorado Springs expert, scored next high with 141. Moore and Clark each broke 144.

Among the amateurs, S. C. Keel led with 148, tying with Heer in the professional class, with O. D. Colbourn scoring 147 and H. H. Hackett 144. The tournament closes tomorrow.

Garrett of Colorado Springs today received a telegram from the powder company he represents informing him that he has been selected to give trap shooting exhibitions in five different cities and towns in various parts of Ohio next week. All his shooting will be with a shotgun at the traps, and he will travel in conjunction with the famous Topperweins, who are distinguished experts with both rifle and shotgun. The Topperweins represent a competitive brand of powder, although both shoot the same make of gun and shells as Garrett. Following the exhibition trip the party will attend the national shoot at Dayton, O.

### EDMONTON CLUB OFFERS \$25,000 PURSE FOR BOUT

EDMONTON, Alberta, June 5.—By instructions of the directors of the Edmonton Athletic club, the wealthiest sporting organization here, Robert Buchanan wired William Nolan, manager of Willie Ritchie, offering to match Freddie Welsh, the English lightweight champion, against Ritchie for \$25,000, winner to take all. An offer of a side bet of \$5,000 was also wired.

SAN FRANCISCO, June 5.—It was said here tonight that it would be impossible for Willie Ritchie to accept the offer of the Edmonton Athletic club to fight Freddie Welsh, as he is tied up by contract for a match in this city. The belief in sporting circles tonight was that Wolgast would be substituted on July 4 for Joe Rivers, who has refused to concede Ritchie's demands.

### WESTERN LEAGUE

HOW THEY STAND

Clubs	W.	L.	Pct.
St. Joseph	23	17	.614
Lincoln	23	19	.548
Omaha	23	21	.523
Des Moines	23	22	.513
Sioux City	23	23	.500
Wichita	23	25	.479
Wichita	23	32	.423

ST. LOUIS, 5; OMAHA, 2.

OMAHA, June 5.—Sioux City bunched hits off Applegate in the fifth and sixth innings today and won, 4 to 2. White pitched excellent ball for the visitors, the locals getting but five hits off him.

R.H.E. Omaha: 4-0-0-0-2-0-0-0-2-5-2. Sioux City: 2-0-0-0-1-3-0-0-4-9-1. Applegate and Johnson; White and Rapp. Two-base hits—Rapp. Three-base hit—Congalton. Home run—Thompson. Struck out—By Applegate, 5; White, 2. First base on balls—Off Applegate, 1; White, 4.

ST. JOSEPH, 3; DES MOINES, 2.

ST. JOSEPH, June 5.—Griffith's single, followed by an infield out and two passed balls, gave the locals the winning run in the eighth. The locals' pitchers' battle, but Chellette had better control.

R.H.E. Des Moines: 2-0-0-0-1-0-0-0-2-6-3. St. Joseph: 3-0-0-0-1-0-0-1-2-4-4. Griffith and Shaw; Chellette and Griffith. Three-base hits—Hunter, Jones. Two-base hits—Kelly, Westzler, Anderson. Struck out—By Chellette, 3; Eubank, 4. First base on balls—Off Chellette, 2.

Note—Topeka-Denver, rain; postponed.

LINCOLN, 1; WICHITA, 0.

LINCOLN, June 5.—Lincoln made it three straight from Wichita today, winning in the ninth inning by a score of 1 to 0, in a great pitchers' battle between Jordan and Scott.

### JOCKEY LYNCH KILLED

HENSTEAD, N. Y., June 5.—James L. Lynch, a steeplechase jockey, came a cropper in the sixth race at Phipps Park, L. I., today and was so seriously injured that he died tonight. Lynch was riding Exemplar, owned by J. B. Widener. His mount fell at a hurdle.

### TWO AVIATORS KILLED

BUC, France, June 5.—Auguste Bernard, a French aviator, and a passenger, were killed today when their aeroplane, while at a considerable altitude, suddenly plunged to the earth. The cause of this accident is unknown.

### SOUTHERN LEAGUE

Atlanta, 4; Chattanooga, 1. Nashville, 2; Birmingham, 1. Montgomery, 4; New Orleans, 4. (11 innings; darkness.)

## ENGLISH QUARTET STILL THE FAVORITE TO DEFEAT AMERICAN POLO DEFENDERS

Devereaux Milburn Is Only One of Original Squad, Following Big Shakeup

NEW YORK, June 5.—The substitution as announced yesterday of an almost entirely new quartet of polo players for the defense of the international cup next week is apparently satisfactory both to the disbanded players and to the enthusiasts who follow the game. The shakeup, radical as it was, gains approval of the changes in his promise to lead the cup defenders his fine string of mounts.

The Waterbury brothers also agreed that they were not in their best form this year and the assignment of L. E. Stoddard and Malcolm Stevenson in their places was made without umbrage being taken on their part.

The makeup of the new team, including the retention of Devereaux Milburn, is a mixture of old and young blood. Stoddard has been playing polo only a few years, but this spring he was picked early as a substitute on the cup defending team. He is rated two points lower than Lawrence Waterbury, whom he replaced at No. 1.

Malcolm Stevenson is another one of the younger players, who has rapidly come to the front. Placing him at back and shifting Milburn to No. 2, however, is a move unexpected to the followers of the practice games, for Milburn was a tower of strength at back. Stevenson, however, is regarded as playing better at back than at No. 2, while Milburn is able to handle any position.

Keene, the new captain, who will play at No. 3, is the veteran of the team, having played on the four that lost the cup to England in 1885, but he is still a top notcher. Milburn, the only member of the team that won the trophy in England in 1890 and defended it in 1911, has been making long drives this season, which have been the subject of much favorable comment and his admirers believe he has no equal the world over as a polo player. One day, over a sudden turn, with one stroke of the mallet, he drove the ball 137 feet, a record drive.

### Zooz Play Sacred Heart Next Sunday

Some more first-class baseball, such as was furnished in the Lincoln and the three Fort Logan games, is promised for the Zooz ball yard Sunday afternoon at the customary hour of 2:15, when the Zooz mix with the collection of the Sacred Heart.

The visitors have been playing some fast ball lately and took two out of three games from the soldiers who gave the locals such close games last week. A week ago they had the Fletcher beaten until the ninth when a combination of misplays lost for them. Their main reliance in the box is Captain Dan Conway who is considered by many as good as Johnny King, their former teammate, now with the Denver Grizzlies, and they also have Flood, a southpaw, who last week held the Zooz to five hits.

The locals will probably have Strinkham in the box as the Mines finger held Sacred Heart to one hit in a game earlier in the season and is believed to have the Indian sign on them. A couple of new men, if they show sufficient form in practice this week, will probably be put in the game Sunday.

Sumner's batting order: Sacred Heart—Dooner, ss; Grace, 3b; Cullen, cf; Conway, p; Chiselm, rf; J. White, 1b; Murphy, cf; McGinnis, 1b; Durbin, 2b.

Zooz—Galt, cf; Schneider, ss; Seger, rf; Hastings, 1b; Deib, 2b; Power, 3b; Long, 1b; Vernon, Dixon, c; Stringham, p.

It was said that the removal of three of the old cup winners and defenders was not due in any measure to friction but quite the contrary to the suggestion of the removed players themselves. The substitution of Foxhall Keene as captain instead of Harry Payne Whitney was made, it is said, at Payne's own instance because he regarded himself in poor health and out of form. He has been the victim of several attacks of indigestion of two weeks ago and he advised the polo committee of his condition.

The old rivalry between the Whitney and Keene families in Wall street and on the turf is also said to be disapproved as in existence now by Whitney's suggestion that Keene take his place. Further evidence of the retired cup-

# Wants

**FOR SALE Real Estate**  
**HOME SWEET HOME**  
is the only heading which will describe this beautiful home; located north of the college in very exclusive district; on corner lot, with well-kept lawn and shrubbery, adjacent to the business appearance of the property. When you enter the door you are at once impressed with the simple grandeur of the interior. Every little detail which would make for comfort and beauty has been carefully planned. Hundreds of dollars have been spent on little extras which the ordinary house does not contain. Built for a home, and in perfect condition. Bright large rooms and a well-kept lawn. Rooms very neatly finished and prettily decorated; property has been the home of an old resident of the

# The New York Ladies' Tailoring

## Ladies, Here Is Your Opportunity

In order to get speedily acquainted with the ladies of Colorado Springs, I have decided to cut my regular price, which is \$25.00 for the making, in half. So you may have the chance of getting your own materials made up, selecting your styles according to the latest dictation of fashion at the nominal price of

**\$12.50**

for this week only.

I want the ladies of Colorado Springs to know that this is only done in order to advertise my ability. All work is guaranteed to fit, and the highest standard of workmanship. You can figure your own price by adding the cost of material, linings and findings, and you can cut your own pattern as to quality. This is the only chance you will ever have to enable a customer to adjust her own expenditure. You can either buy the goods from us or any merchant in this city. We carry a full line of trimming for afternoon gowns in our dressmaking department.

### LINEN

Suits, regular price, \$20.00, will be made for

**\$10.00**

Our specialty is riding coats and breeches, and the new top-lap riding skirts.

Automobile coats made of linen, Raja or silk at greatly reduced prices.

Cleaning, pressing, altering done at a very nominal price.

Skirts \$4.00 for the making.

**Mr. Harry Miller**

New York Tailor.

324 N. Tejon

## GIVES TALK ON BIRDS

Dr. W. W. Arnold, the bird expert, gave an interesting talk on the feathered family at the Garfield school yesterday afternoon. About 500 children were attentive auditors. Dr. Arnold cited an object lesson from the screech owl and also took a crippled black-headed grosbeak to the school from his bird hospital to point a lesson on cruelty to birds. The grosbeak had been shot and Dr. Arnold had amputated its leg, and it is now apparently as happy as ever, though forced to hop about on one foot. Dr. Arnold pointed out the usefulness of birds to mankind, and gave many reasons why they should be protected.

## CAMP DELWOOD NEWS

The arrangements for Camp Delwood are complete, and Monday morning the largest, merriest and best-organized bunch of boys will leave the "Y" that have ever gone on a camp from Colorado Springs. There are between 50 and 60 fellows, and every fellow going

with the idea of not only having the best time possible, but also giving the other fellow the finest kind of a time. There has been busy work for the last week in the boys' department for the final arrangements, and the leadership of the camp is very much gratified with the results.

There will be six large tents in the camp, each under a leader and an assistant. As little matters may come up at any time, a camp council will be appointed to settle differences. Dr. Chesmore has prepared for all the little accidents which it is possible to run into in camp, and everything is in readiness for a great time.

The postoffice address of the boys is Camp Delwood, West Creek, Colo.

## NATIONS WANTING PEACE NOW TOTAL 13, SAYS BRYAN

WASHINGTON, June 5.—Secretary Bryan today announced that Germany, Bolivia and Argentina had so far approved his proposal for universal peace as to ask for tentative drafts of the treaties. With these additions the list of nations that have undertaken to consider the proposal favorably reaches 13.

# How to Make CALUMET Biscuit

To see how delightful baking can be, get a can of Calumet Baking Powder and try this delicious recipe:

**Calumet Biscuit.**  
1 heaping teaspoonful Calumet Baking Powder.  
1 level teaspoon of salt.  
2 rounded tablespoons butter or lard.  
1 cup of milk.  
1 cup of water.

Sift flour once, then measure, add salt and baking powder and sift three times, rub shortening in with fork or spoon, add milk and water, turn out on a well-floured board and roll one inch thick, cut and bake in a quick oven about twelve to fifteen minutes.

And then when they come piping hot from the oven, light and fluffy and wholesome—butter and taste.

That's the Calumet test—always. Everything baked with Calumet must be as good—or a little better—than bakings made with other brands.

Calumet is moderate in price—economical in use. Your grocer knows—ask him.

### RECEIVED HIGHEST AWARDS

World's Pure Food Exposition, Chicago, Ill.  
Paris Exposition, France, March, 1912.

# CALUMET

BAKING POWDER

### CALUMET GUARANTEE

We guarantee Calumet to be pure and wholesome, and to give perfect results. If, in your opinion, Calumet fails to give satisfaction, return the can to the grocer and get your money back.

CALUMET BAKING POWDER CO.

P. S.—We forgot to mention in the above recipe that it requires four cups of sifted flour.

## FIRST NATIONAL GETS U. S. TREASURY FUNDS

The First National bank of this city has been selected by the treasury department as one of a number of Colorado banks which will receive a total of \$163,000 for deposit out of the general fund of \$10,000,000 which the treasury department is depositing with national banks all over the United States. The bank here has not received official notification of the plan and is not aware what portion of the \$163,000 it will obtain. The Colorado banks mentioned in the report from Washington follow: American National, Alamosa; First National, Colorado Springs; First National, Cripple Creek; Denver National and Federal National, Denver; Morgan County National, Fort Morgan; First National, Greeley; First National, La Junta; First National, Manitou; First National, Montezuma; First National, Pueblo; First National, San Juan; First National, Sterling.

## SAN LUIS COMMENCEMENT

Commencement at the San Luis school yesterday morning was marked with an unusually attractive program, consisting of songs, folk dances, drills and addresses, that pleased the large number of parents and patrons that attended.

Miss Henry, principal of the school, has experimented with an academic department this year and will make a specialty of it in the future. In that department this year high honors were won by Miss Janet Pennoyer and honors by Miss Dorothy Price, Miss Berthe Armit, George Krause and Hood Van den Arend.

Other prizes were announced by Miss Henry. In the eighth grade, Miss Miriam Perkins and Miss Helen Harmon tied for first. Stuart Armit got a second and Eleanor Ross and Vincent Gidea tied for third; in the sixth grade, Florence Heren and Vechte Hongland won prizes. In the fifth, Jennette Hawkins, first; Florence Knox, second, and Elizabeth Hamlin and George Allen tied for third. Prizes for perfect attendance during the school year were won by Janet Pennoyer and Charles Farnsworth. A special prize in writing was won by Vechte Hongland.

An all-school picnic will be held today in Cheyenne canon.

Miss Henry and Miss Park will spend the ensuing summer on Miss Henry's ranch at Hood River, Oregon. They will also visit Portland and Medford and later go to Alaska, not returning to the Springs until the opening of the school year, September 15.

MISS LAURA MURRAY  
Of Pattee's Living Girls at the Empress

MISS DORA WOOLARD  
Expert Diver at Empress.

## JUDGE LUNT TO TALK AT COMMENCEMENT

Judge Horace G. Lunt will take part in the commemorative exercises at Colorado college Monday morning, and will speak on behalf of the trustees of the institution immediately following the address by Mayor McKesson. His name was omitted from the list of speakers previously given.

In an average year the Mississippi carries out to sea 136,000,000 tons of mineral or earth salts in solution and 340,000,000 tons of mud.

We make daily deliveries to Colorado City and Manitou

## 17 Dozen Cotton Huck Towels (not all perfect) size 18x36, an exceptionally good value, at each 5c

## BANKS BUY SCHOOL BONDS

School bonds of \$125,000, part of those voted last fall, and which are being used for the construction of the new high school buildings, have been disposed of to bankers belonging to the Colorado Springs Clearing House association. The bonds were distributed equally among the local banks. They were sold for par and will bring 5 per cent interest. They are 20-year paper.

## WILL BUILD CONDENSED MILK FACTORY AT LAMAR

Reports have been received in this city of the signing of a contract by the Helvetia Milk Condensing company of Highland, Ill., to establish a factory at Lamar, Colo. The factory will be the ninth belonging to the company, and will be the biggest factory of any kind that has ever been secured for the Arkansas valley. While no local people have a direct financial interest in the establishing of the factory, the announcement has attracted some attention here.

The new factory at Lamar, it is estimated, means a milk payroll of more than \$1,000 a day in that section, and a labor payroll of nearly half that amount.

## OLD SCHOOL PROPERTY STILL LACKS PURCHASER

Probably because of a building restriction in the terms of the original purchase, to the effect that no building costing less than \$2,500 can be placed upon the property, the school board of the Cheyenne school district has been unable to sell the old Cheyenne school and the property surrounding it, although it was offered at public auction last Monday. No bid for the building was made at the auction, and the school board is out \$25 or more which it paid out for the

advertisement of the sale and for the auctioneer's fee. The property is still on the market, as it is the sentiment of the community around the Cheyenne school that something be realized on the property where the old school stood.

## BISHOP THOMAS AT GRACE CHURCH SUNDAY

Next Sunday an unusual opportunity will be afforded Grace church parish to hear one of the ablest bishops of the church. The Rev. Nathaniel S. Thomas, D. D., bishop of Wyoming, will preach at both services. Bishop Thomas came to Wyoming five years ago, after having served for several years as rector of the Church of the Holy Apostles, Philadelphia. He has done excellent work in his new field and has already made a place for himself as a leader of thought and action in Wyoming.
